SHOWA 6797R

The SHOWA 6797R chemical protection gloves use rugged neoprene and an elbow-length gauntlet to keep the wearer safe from acids, oils, chemicals, and caustics. Its rough surface grip allows for optimum precision when working in wet or greasy environments. The breathable cotton liner ensures comfort in hot and cold environments, even during long periods of wear.

BENEFITS

- Acid-resistant
- Chemical-resistant
- Oil-resistant
- Forearm protection
- Abrasion-resistant
- Breathable
- Water-resistant

INDUSTRIES

Chemical

FEATURES

- Fully-coated neoprene
- Cotton liner
- Rough grip

- Rough

USER INSTRUCTIONS

Gloves provide protection from chemical and mechanical hazards shown. Do not use gloves that show signs of wear. If required, cleanse outer surface of glove with running water. Discard used gloves in compliance with local regulations. Do not wear gloves when there is a risk of entanglement by moving parts of machines.

DISCLAIMER

The descriptions, characteristics, applications and photos are given for information purposes and do not constitute a contractual commitment. The manufacturer reserves the right to make any modifications it deems necessary.
