| Heavy Metal Testing / Prop 65                                                                                                                                                                                                                |                                         |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------|
| Based on a review of supplier documentation and an internal assessment of the Prop 65 chemical list, we have determined that the best approach to maintaining Prop 65 compliance is to perform heavy metal testing of our finished products. |                                         |
| Product is confirmed to meet the Prop 65 limits for heavy metals as listed in the guidelines of the California Safe Drinking Water and Toxic Enforcement Act of 1986.                                                                        |                                         |
| <b>Heavy Metal</b>                                                                                                                                                                                                                           | <b>No Significant Risk Level (NSRL)</b> |
| Arsenic                                                                                                                                                                                                                                      | < 10 mcg / day                          |
| Cadmium                                                                                                                                                                                                                                      | < 4.1 mcg / day                         |
