CODE FORMAT

MANUFACTURED DATE:

The lot number is defined using the Albanese internal identification barcode. In this example, the lot number is **1201010114**. The Mfg. Date and the last 4 digits of the Albanese internal identification barcode are the Julian manufacture code. For the example above **0114** is the Julian code which decodes as YJJJ, 0 meaning 2020 and 144 is the Julian code for April 23.

If calling in to report an issue with product, we will need the $Lot\ Number$ listed under the bar code, in this example, it would be 1201010114.
