

# **Installation Instructions For DI-1-5SP-EC/DI-1-10SP-EC DROP-IN SINK WITH SIDE SPLASHES**

**DI-1-5SP-EC**

**DI-1-10SP-EC**

**CHECK FOR CONCEALED DAMAGE  
FILE CLAIM WITH DELIVERING FREIGHT CARRIER**

**Contents:**

- (1) DI-1-5SP-EC OR DI-10SP-EC
- (1) Gooseneck 4" O.C. Deck Mount Faucet
- (1) K-6 Basket Drain
- (4) Under-Counter Mounting Brackets
- (4) Nuts

**Tools Required:**

- Ruler or Tape Measure
- Pencil
- Saber Saw or Jig Saw
- 1/4" and 3/8" Drill Bit
- Adjustable Wrench

**Material Required:**

- Silicone Sealant
- Plumbing Putty

**Recommended Safety****Materials:**

- Safety Glasses
- Work Gloves

**STEP 1**

- Remove all contents from carton. (**NOTE:** Check for concealed damage - Notify Carrier of any damages immediately)

**STEP 2**

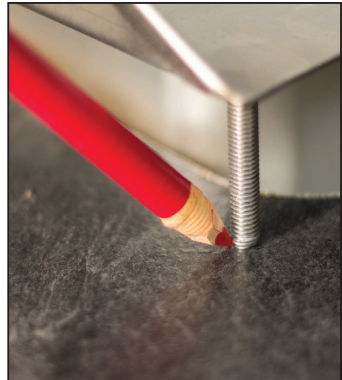

- Cut opening (16 3/8" Front To Back x 10 1/2" left To Right) at desired location on countertop. **NOTE:** Cut 1" radius at four intersecting corners.
- Place Drop-In Sink into opening. Mark location of four threaded studs at each corner (**Figure 1**). Remove Drop-In Sink and drill four 3/8" diameter holes.

**Cut Out size will be:**

**16 3/4" F/B x 10 1/2" L/R.**

- **NOTE: BEFORE CUTTING COUNTER TOP, VERIFY CUTOUT DIMENSIONS!**

**REMEMBER: MEASURE TWICE,  
CUT ONCE!**

**Figure 1**

### STEP 3

- Install Drain through Sink Body. Apply a bead of Plumber's Putty on the inside between the Drain Flange and Sink. Follow steps below...

1. Add Rubber Washer

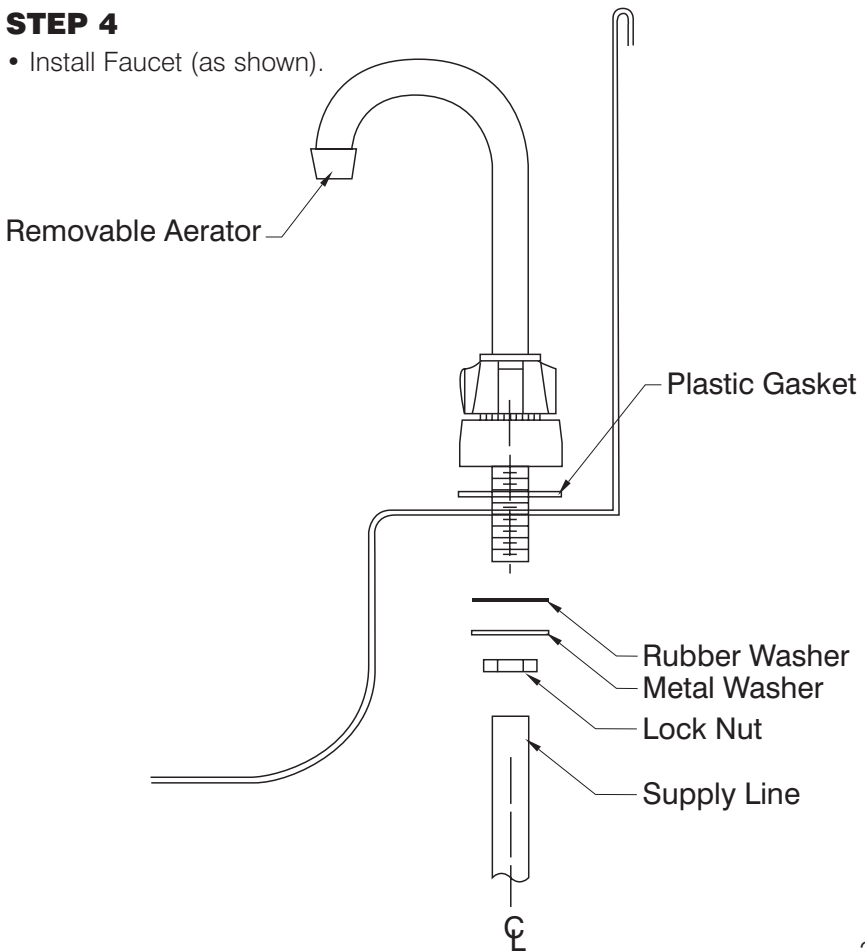

2. Add Fiber Washer

3. Screw on Die Cast Nut and Tighten

### STEP 4

- Install Faucet (as shown).

## STEP 5

- Apply a bead of Silicone Sealant along edge of cut out (**Figure 2**).
- Insert Drop-In Sink into cut-out while lining up the four holes with the threaded studs and push down into the bead of Silicone.

**Figure 2**

## STEP 6

- From the underside, place each bracket on an angle and tighten each nut on all four threaded studs. (**Figure 3**).
- **DO NOT OVERTIGHTEN!**
- Connect drain and faucet supply.
- Remove Aerator & flush line.
- Replace Aerator

**Figure 3**
