

## Converge® Cleaning & Care

Ensuring ovens operate at the highest potential requires proper cleaning and care. Without regular cleaning and maintenance, food quality and oven performance will suffer. Converge multi-cook ovens feature up to three combi ovens in one ventless footprint, increasing menu variety and throughput. While a great benefit for foodservice operations, cooking a variety of food with different applications leads to grease and oven buildup. But don't worry, Alto-Shaam has it covered.

Learn more about Alto-Shaam's approved spray and tablets designed to properly care for, clean, and maintain a Converge multi-cook combi oven.

## Oven Decarbonizer + Degreaser

### Product Details:

- ✓ Formulated to supplement Alto-Shaam's non-caustic oven cleaner
- ✓ High performance, concentrated formula
- ✓ Helps break down heavy soils and cooking debris including fats, oils, and carbonized particles that build up from baking, roasting, or cooking in Converge ovens
- ✓ Saves time and labor associated with regular oven cleaning
- ✓ Eliminate the need for heavy scrubbing with scouring pads
- ✓ Odorless, nonirritant formula is safe to use for employees
- ✓ Made in the USA

**Oven Decarbonizer + Degreaser**

CE-48623

Case includes four bottles and four spray wands.

## WHEN TO USE

Alto-Shaam recommends using the oven decarbonizer + degreaser daily when cooking heavy proteins. For all other applications, use as needed for heavy grease, oils, and protein buildup.

## DIRECTIONS FOR USE

1. Gently shake bottle 4 times before using.
2. Apply 10-12 pumps per chamber.
3. Run an automatic spray clean or heavy clean program to rinse thoroughly with clean water.  
**Note:** Both programs start with a built-in 30-minute rest for the oven decarbonizer + degreaser to loosen carbon/grease build up.
4. Reapply to stubborn areas and repeat process as needed.

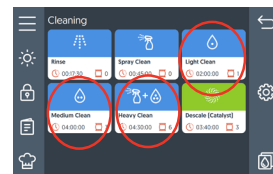

## Cost of Ownership

1 case of oven decarbonizer + degreaser lasts for 3 months when daily cooking fatty proteins at high temperatures. All other applications, 1 case should last 6 months, based on use.

# Non-Caustic Oven Cleaner

## Product Details:

- ✓ Powerful, concentrated formula cuts through grease, heavy soil, and other cooking debris that builds up during the cooking process
- ✓ Fast-acting foam works to clean jet plates and oven cavity without employee labor
- ✓ Formulated to clean Converge ovens with self-cleaning programs
  - o Light, medium and heavy clean
- ✓ Safe for use on stainless steel
- ✓ Made in the USA

### Non-Caustic Oven Cleaner

CE-48578

Case includes 90 packets.

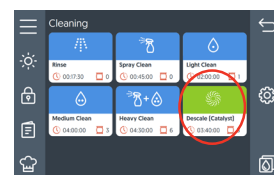

## Cost of Ownership

1 case of non-caustic cleaner lasts between 1 - 2 months when using Converge daily for high production cooking. All other applications, 1 case should last 3 months, based on use.

# Descaler Cleaner

## Product Details:

- ✓ Keeps catalyst at optimal ventless performance
- ✓ Reminders to descale the catalyst are built into oven
- ✓ Made in the USA

### Descaler

CE-47859

Case includes 30 packets.

## Cost of Ownership

1 case of descale cleaner lasts 3 months when using Converge daily for high production cooking. All other applications, 1 case should last 6 months, based on use.

## FAQs

### Can I use these cleaners in other products?

While these cleaners can be used in other products, they were formulated specifically for Converge ovens to safely effectively clean the stainless steel and jet plates – all while protecting the catalyst for optimal ventless operation.

### What cleaners come with a purchased Converge oven?

A box of four bottles of oven decarbonizer + degreaser spray cleaner and a pack of 30 non-caustic packets and 6 descale packets comes with every Converge unit.
