MANUFACTURER'S WARRANTY

Our Lecterns undergo the most rigid and exacting tests for superior quality and performance before leaving the factory. Oklahoma Sound Corporation warrants this product to be free from defective material and workmanship on the electronic product speakers and microphones for two years from the date of sale by an authorized Oklahoma Sound distributor. Oklahoma Sound will replace defective parts and repair malfunctioning products under this warranty when the defect occurs under normal installation and use, provided the unit is returned to our factory via prepaid transportation, after direct authorization and approval by Oklahoma Sound. This warranty provides that examination of the returned product must disclose in our judgement, a manufacturing defect. This warranty does not extend to any product which has been subject to misuse, neglect, accident, improper installation, or where the serial number has been removed or defaced and is given in lieu of any other warranty implied or expressed and will not cover any consequential damages.

For these and other OSC accessories, please contact your dealer, or:

THE WIZARD

PRODUCT HANDBOOK

MODEL # WZD

INTRODUCTION

The Wizard is a dream to use for any educator or presenter. Constructed of 18-gauge steel with square tube corner supports, accented with cherry wood surface, this unique cart offers both durability and beauty.

This unit is equipped with a VGA easy-connect console that connects to a LCD projector, which can be placed/stored on the lockable sliding shelf built into the unit. The VGA pass-through plate allows a presenter to easily connect a laptop or document camera in a flash. The lockable storage cabinet and sliding shelf are designed to support all leading brand document camera and LCD projectors. The built-in lockable storage drawer will keep all extra cables, pointers and important manuals safe and secure. The top surface is constructed from high quality one inch melamine laminate measuring 18" Lx21" W.

Additionally, this unit is outfitted with a flip up side shelf measuring 14" Lx14" W which provides the option of having your laptop and document camera available to use simultaneously. Storing equipment in the large secured cabinet with an adjustable shelf makes the setting up of your presentation as easy as 1-2-3. The surface has an integrated pop-up lectern which can aid in reading notes during a presentation. Equipped with 4" casters, unit easily rolls throughout entire venue. A 20-foot retractable power cord with a 6 outlet power strip is mounted in the inside of the unit for easy wire management.

Dimension

Overall.....18" L X 21" W X 34.5" H
Surface.....18" L X 21" W
Side shelf.....14" L X 14" W
Projector sliding shelf....16" W X 14" L

Hardware included:

4 Casters (2 locking- 2 Non-locking)
16 Caster bolts
12 Black screws

Tools Needed:

Phillip Screwdriver
Hex key (provided)

Congratulations!! on your purchase of this all inclusive multi-media presentation cart. This cart has been designed with a wire management system to have all your classroom media equipment used simultaneously. The surface has a wire grommet on the top left corner. Directly under the grommet you will find another grommet on the middle shelf leading you to the power strip located on the small shelf inside the cabinet. We also included a unique VGA console which will allow you to have your projector connected from the inside of the cart, while connecting your media source from front panel with ease. Attach the VGA cables by inserting the 15 pin male cord into the female connector. The small nuts on the side of the connector allows you to secure the cable by screwing the plug into the nuts with the screws attached to the side of the cable.

Assembly

CASTERS:

To assemble the casters, lay the unit down on its back (doors facing up) on a clean soft surface. The casters should be assembled by simply lining up the holes on the base of the caster with the plastic sockets on the bottom of the unit. Use the hex key that is provided with the unit to tighten the bolt.

Note: There are two locking and two non-locking casters. Install the two locking casters at the front of the unit for easier access while standing behind the unit.

SIDE FLIP UP SHELF:

To properly assemble the side shelf, start by opening the support arms to the upright and secure position. Place the shelf on top of the arms and align the holes with the pre-drilled holes underneath the shelf. Use a screwdriver or a drill to secure the shelf to the arms.
