Since 1896

At BOSKA we make Food Tools for Life and we believe quality is sustainability. Our goal is to design products that last a lifetime. It all began near Gouda, in Holland, where blacksmith Willem Bos made his first cheese tools for the local farmers. From that day on it's been our family's tradition to create fun & smart tools so you can enjoy cheese, chocolate, pizza and more to the fullest. We love it! So whether you're cutting, slicing, grating, grilling or melting, we'll help you create mouthwatering food and a party on your table. Enjoy!
