

One Valve, Two Jobs

Tempered Water & Tepid Water
with one Thermostatic Mixing Valve

Another innovation in valve technology from Bradley!

Bradley's new Navigator® Thermostatic Mixing Valve delivers tempered water to the faucet during regular use such as handwashing. In an emergency, the valve delivers tepid water to the emergency safety eyewash to meet the ANSI/ISEA Z358.1 required 15-minute flush.

Navigator® Emergency Thermostatic Mixing Valve for Eyewash and Faucet

A complete single mixing valve solution

- Tempered water outlet to faucet and Tepid water outlet to eyewash
- Exclusive! 2 valves in 1 saves installation time and space under the sink
- Cold water bypass on eyewash assures cold flow if hot water fails
- Anti-scald protection: positive shutoff of hot supply when cold supply is lost
- Accurate temperature control to within $\pm 3^{\circ}\text{F}$
- Direct mount to wall
- ASSE 1070 and 1071 Certified
- Eyewash valve meets ANSI/ISEA Z358.1
- 100% factory tested
