JS012C

Quick and easy assembly

Adjustable within seconds

To take any size of plate

Jackstack International N.V.

The world's fastest & most versatile preparation serving & storage system

Assembly instructions:

- Place the feet vertically and mount both horizontal sheets with indentations up in the respective screw holes with bolts and nuts.
- Fix the screws at the side of the feet so that the telescopic feet can eventually be extended to the rear.
- Fix the uprights in the indentations of the horizontal sheet.

Horizontal sheet with indentations

upright

Telescopic feet

Adjustments:

- The only correct setting is when the plates rest on all four plastic o-rings.

-
