

Niles Table Base Assembly

Parts:

1. One table plate
2. One center column, notched,
3. One center rod bolt 22-1/4"
4. One nut 9/16",
5. One base,

Tools required

1. Screwdriver
2. 9/16" wrench

Assembly

1. Put bolt through top of table plate.
2. Place column over bolt.
3. Put table plate face down on ground with support underneath to hold bolt up
4. Align column notches with table plate and place base over bolt and onto column aligning column notches with base.
5. Thread nut onto bolt and tighten
6. Return base to upright position. Base is now ready for table top attachment.
