

Niles Table Base Assembly

Parts:

- 1. One table plate
- 2. One center column, notched,
- 3. One center rod bolt 22-1/4"
- 4. One nut 9/16",
- 5. One base,

Tools required

- 1. Screwdriver
- 2. 9/16" wrench

Assembly

- 1. Put bolt through top of table plate.
- 2. Place column over bolt.
- 3. Put table plate face down on ground with support underneath to hold bolt up
- 4. Align column notches with table plate and place base over bolt and onto column aligning column notches with base.
- 5. Thread nut onto bolt and tighten
- 6. Return base to upright position. Base is now ready for table top attachment.
