

Culinary Quality
Whipping System

Cream Chargers & Whippers

Kayser is a leading manufacturer and marketer of high-quality culinary whippers and chargers that are sold in more than 70 countries worldwide. Founded in 1952, the company initially focused on the niche market of specialized gas cylinders (chargers) for food and industrial applications.

Through a master distribution and sales partnership with iSi North America, Kayser whippers and chargers will be available to culinary customers throughout the United States and Canada.

Kayser is one of the few vertically integrated companies that controls manufacturing and marketing of their compressed gas products and whippers which ensures product integrity, quality, and consistency. Kayser chargers are produced in the Czech Republic.

Certifications

Kayser employs rigorous engineering and safety standards to ensure customers receive quality products at a good value. The manufacturing facility undergoes continuous inspections for food safety, environmental safety and quality management.

Culinary Quality Cream Chargers & Whippers

Create and serve whipped cream,
barista cold foams, espumas,
mousses, & light desserts.
