  7. Customizable Laminate Graphic
  8. Lifetime warranty on frame
  9. 2 hours of continuous operation
  10. Single person transport (fully loaded)

# Power It Up!

One person movement – full loaded with ease.

Follow these simple steps to set up, operate, and maximize the full functionalities of your Lakeside Electric Portable Bar System from start to finish, day in and day out.

### 1. Power It On

Start both the electric portable bar and back bar with the ON/OFF turnkey. Powered by 24v hot-swappable batteries, they're ready to go with just a 70-minute recharge offering up to 2 hours of uninterrupted operation.

### 2. Enjoy Precision and Safety

Use the ergonomic thumb throttle on both bars for precise forward and reverse speed adjustments. For added safety, activate the emergency stop button. Once engaged, your electric bars convert seamlessly into manual portable bars.

### 3. Effortless Maneuvering

Move each bar smoothly across uneven terrain, position where needed, with minimal effort required. Once you've found your spot, lock the casters.

### 5. Keep Ice Fresh

Load the 40-lb. ice bins on the electric portable bar to maintain fresh, ready-to-serve ice throughout your event.

### 6. Maximize Storage Space

Store supplies neatly in spacious compartments on both bars, providing clutter-free and efficient stainless steel workstations. The portable bar features open compartments underneath its workstation for easy access, while the portable back bar provides added security with lockable, key-secured compartments.

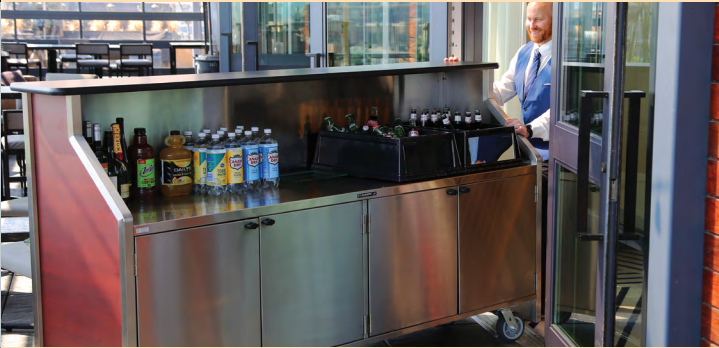

### 7. Serve Delightful Refreshments

Begin preparing and serving refreshing drinks to your customers quickly and precisely.

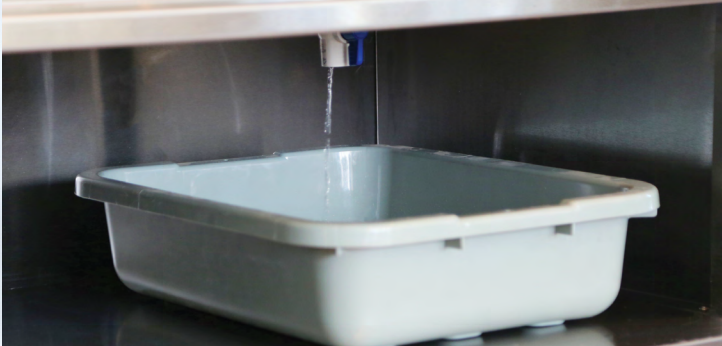

### 8. Relocate to Where Your Guests Are

Did your crowd of guests move to a new spot? The bar and back bars' integrated electric hub motor and all-swivel casters provide easy mobility, so relocating to a new spot is a breeze.

### 9. Easy Draining Functionalities

Drain the ice bins on the electric portable bar into the bussing bucket to eliminate excess water and maintain sanitation, leaving you ready to go for your next event.

### 10. Clean and Shine

Finish up by wiping down the stainless steel construction on both bars, crafted for easy cleaning and long-lasting durability.

# Versatile Applications Across Industries

## Tailored Solutions, Specific to Your Needs

The Lakeside Electric Portable Bar System offers unmatched mobility, convenience, and accessibility, making it the ideal solution for various industries in foodservice. Check out how it can work in each below!

### HOTELS

- Weddings and Receptions:** Roll out the bars to transform banquet halls into elegant cocktail venues. The ergonomic thumb throttle allows staff to transport the bar exactly where it's needed, while 40-lb. ice bins and spacious storage compartments keep the bartenders organized and efficient throughout the event.
- Poolside Service:** Move the bar across uneven outdoor terrain to the pool area, where its stainless-steel construction resists humidity and allows easy cleaning after service.

### CONVENTION CENTERS

- Vendor Events:** Set up mobile bar stations at crucial touchpoints, allowing attendees to grab refreshments without missing keynote sessions or exhibit booths. Its integrated electric hub motor reduces strain on staff traveling long distances.
- Breakout Areas:** Create a cocktail bar for networking lounges. The fixed speed rail and spacious compartments ensure everything stays organized during service.

### CASINOS

- Special Promotions:** Move the bar to promotional activities or jackpot celebration areas to drive attention and engagement with custom-tailored refreshments.
- Outdoor Events:** From rooftop parties to outdoor gaming events, the electric hub motor provides smooth transportation across various surfaces, while the emergency stop adds safety while maneuvering.

### COLLEGES AND UNIVERSITIES

- Fund Raising Events:** Host professional setups during alumni and donor events with neatly stocked bars and spacious compartments for organization.
- Campus Events:** Adapt to high guest traffic during graduations and other campus events by relocating the bar to high-demand areas to serve beverages efficiently and foster a joyful celebration.
