These urns are designed to keep coffee hot and fresh for hours, through the entire duration of your event or meal time.

30, 45, 65, 100 CUP CAPACITY

REMOVABLE LID, BREW BASKET & STEM

Model 177CU100ETL

Model 177CU45ETL

Durable Stainless Steel Body

These urns are made from durable 304 stainless steel, which offers superior corrosion resistance compared to other types of stainless steel. The double-walled design also keeps the exterior at a comfortable temperature, preventing accidental scalds and burns.

Easy Operation

A simple on/off switch makes it easy to get brewing right away, and its dual-heater thermostat system will take care of the rest - brewing and holding coffee at ideal temperatures.

Quick Brew Time

Each urn can brew approximately (1) 5 oz. cup per minute, reducing your wait time to serve guests.

Easy Cleaning

The exterior has a polished finish that makes it an attractive addition to any coffee station, and also makes it easy to clean! Parts can be easily removed and reassembled to clean the inside of the unit.

Easy Setup

Setting up this unit is a breeze thanks to its removable lid, brew basket, and stem. For ease of use, a scannable QR code is located on the unit.

Safe Transporting

Designed with safety in mind, this urn comes with a heavy-duty locking lid that prevents spills during movement, while cool-touch handles give you a place to grip the urn safely.

Overheat Protection

Boil-dry and overheat protection features keep your urn from reaching unsafe temperatures and give you peace of mind that even during busy shifts you can count on it to operate within safe parameters.

Convenient Sight Glass

These urns each come with a convenient exterior sight glass so that you can easily tell when it's time to brew more coffee.

Maximum Fill Line

Each unit has a max fill line on the inside to help prevent overfilling and accidental overflows.

Convenient Indicator Lights

Indicator lights let you know when the urn is heating and when it has switched to "keep warm" mode.

Quick Access to Product Literature

For ease of use, a scannable QR code is located on the unit. This allows users to access relevant manuals, spec sheets, videos, and more online.
