FEATURES & BENEFITS

Bobrick's touchless soap dispensers and faucets offer reliability, durability, and easy installation and maintenance, delivering the best value for labor, soap, and water savings.

Soap Dispenser Details

Top-filling provides easy above-counter filling, reducing maintenance time and cost. Saves 25% labor with no more bending under the counter to change out cartridges.

Dispenses economical bulk jug soap for significant cost savings of 80% or more over proprietary cartridges.

Touch-free, reducing cross-contamination, and adjustable soap control dial for effective hand washing, addressing patron preferences. Low Soap Level Indicator informs maintenance when to refill.

Locking cover swivels open, revealing a 2" wide integrated funnel designed for easy filling with bulk jug soap.

Faucet Details

Support sustainability goals in every washroom with a faucet designed to conserve water with .5 GPM vandal resistant, non-aerated spray.

Below the counter electronics protects parts and offers adjustable operational settings for auto water time-out durations, metering mode, and auto-flush feature to reduce excessive water use and provide reliable performance.

Touch-free, hidden sensor with adjustable activation range delivers efficient, hygienic operation, and a streamlined profile.

Sophisticated user detection ensures a hygienic, touchless operation and helps deliver optimum water savings.
