SYRACUSE CHINA

Classic, investment-quality dinnerware and serveware blends timeless style with enduring performance. When it comes to fine dining, there should be no compromise.

EVERY DETAIL MATTERS

Each product is listed with key design features, defined below, that can enhance the durability of your dinnerware.

Fully Vitrified: Products are fired at temperatures greater than 2300°F to achieve a stronger and harder material that minimizes absorption of moisture, odor and bacteria.

Fully Vitrified with Microban® Technology: Microban technology* is integrated into the fully vitrified glaze, for an additional level of defense that will never wash off. It creates an inhospitable environment for microbes to help prevent them from growing on the surface.

Polished Foot: Smooth foot helps to reduce plate-to-plate surface scratching.

Highly Polished Foot: Achieves a greater degree of scratch resistance.

Glazed Foot: The highest level of durability, ensuring virtually no plate-to-plate surface scratching.

*Does not protect people from food-borne pathogens. Microban is a registered trademark of Microban Products Company.

CUSTOM STAMPING GUIDE

CUSTOM STAMPING/ENGRAVING GUIDE – FLATWARE

All World® Tableware flatware, serving pieces and steak knives can be customized to feature your name and/or logo on either the front or back, as permitted by the pattern design. Choose from many typeface designs or have us create stamps from your logo, crest or other artwork.

Most stamping jobs require at least two dies, and usually three, so that lettering will be in proper proportion to handle sizes. Up to five different die sizes may be required to stamp an extensive flatware service. Steak knives can be laser-engraved on either blade.

Custom stamping or laser engraving adds approximately 6-8 weeks to normal shipping requirements upon receipt of purchase order and approved artwork.

Please contact your Libbey® sales representative for more details on how to make your own unique “statement” by customizing your tabletop flatware.

CUSTOM ENGRAVING GUIDE – HOLLOWARE

Special monograms, crests or logos for reproduction by machine engraving on holloware require a customized stencil. The cost of engraving a logo, monogram or crest on a piece of holloware will vary depending upon the complexity of the design and will be determined by the engraver upon receipt of the artwork along with location and size instructions. A drawing will be prepared and sent for your approval showing size and position on the item. This drawing must be signed and returned before an engraved order will be processed.

SUGGESTED STAMPING – FLATWARE

All engraving must be on a surface area that lends ample space to complete the lettering. The final location is subject to the engraver's approval. Stock lettering styles shown above do not require a stencil charge unless the customer requires a larger size than is possible using the stock stencils.

All orders must include style of lettering, size of letters and position of each article where lettering is desired.

Orders for engraving machine lettering add approximately 6-8 weeks to normal shipping requirements. Examples of letter engraving for logos and stamping are illustrated above.

SILVERPLATING AND TUMBLING OPTIONS*

Many of our flatware and holloware items can be silverplated on a made-to-order basis and subject to shipment approximately 6 weeks after receipt of the order at World Tableware, provided there is sufficient stainless steel stock. Many items can also be tumbled to create a vintage look, subject to the same lead times. Customer orders for silverplated or tumbled merchandise are non-cancelable and non-returnable once an order has been processed.

Please contact your Libbey® sales representative for more details on silverplating items.

*Made to order, subject to lead times.

resists virtually all stains, odors and tainting of beverage flavor

DISHWASHER DURABLE

maintains “like new” appearance even after hundreds of cycles

KENTUCKY BOURBON TRAIL®

Embracing a great American tradition

In 1999, the Kentucky Distillers' Association, whose members include the likes of Woodford Reserve, Maker's Mark and Bulleit, formed the Kentucky Bourbon Trail® tour. In 2017, visitors made more than 1 million stops at distilleries along the tour for a firsthand look at the art and science of crafting bourbon, while learning the rich history and proud American tradition of this signature spirit.

THE RIGHT GLASS

FOR WHAT'S TRENDING IN WINE

The fundamentals of **PAIRING** the **RIGHT GLASS** with the **RIGHT WINE**.

From sweeter varietals to Champagne cocktails, patrons continue to explore wine from all angles. And our glassware is designed to deliver every bit of the intense flavors and aromas of today's popular beverages.

LIGHT-BODIED RED WINES

No. 7522 shown

For these wines with fewer tannins and more subtle flavor, a large bowl and wide mouth allow the wine to breathe, enhancing delicate flavors.

Pair with Beaujolais, Pinot Noir, Sangiovese, Cabernet Franc

FULL - AND MEDIUM-BODIED RED WINES

No. 7520 shown

These have the highest tannins resulting in complex flavors. A tall bowl directs the wine to the back of the palate for a richer tasting experience.

Pair with Bordeaux, Cabernet Sauvignon, Merlot, Malbec, Shiraz, Syrah

LIGHT - AND MEDIUM-BODIED WHITE WINES

No. 7519 shown

Perfect for lighter, more delicate white wines with less alcohol. A smaller bowl concentrates subtle aromas and directs the wine to the tip of the tongue for better appreciation of sweeter flavors.

Pair with Riesling, Moscato, Pinot Grigio, Pinot Gris, Petit Chablis

FULL-BODIED WHITE WINES

No. 7553 shown

For heavier wines with a fuller body, a wide bowl enhances complex aromas while directing the wine to the back of the tongue, heightening flavor intensity.

Pair with Chardonnay, Sauvignon Blanc, Gewürtztraminer, White Zinfandel

CHAMPAGNE AND SPARKLING WINES

No. 7500 shown

A tall, narrow glass maintains flavor concentration and displays effervescence, enhancing presentation.

Pair with Champagne, Prosecco, Lambrusco

DESSERT WINES

No. 7531 shown

A smaller glass enables proper portioning of these higher alcohol wines. A rounded bowl directs the wine to the back of the mouth, perfecting the sweetness.

Pair with ice wine, Sauternes, Moscato

THE RIGHT GLASS FOR WHAT'S TRENDING IN SPIRITS

The **BASICS** on traditional glassware
for **SPIRITS**.

Today, patrons are seeking creations by rock star mixologists – with showmanship, interaction and education that draws them to the experience. The right glassware can set the stage for dramatic and engaging presentations.

SPIRITS SERVED NEAT

No. 3502FCP21 shown

A rounded design with heavy base is perfect for swirling “neat” drinks – unmixed spirits served at room temperature – to open up the flavors. The glass narrows at the top to concentrate and enhance the complex aromas.

SPIRITS SERVED ON THE ROCKS

No. 15481 shown

The heavy weight and wide top are perfect for serving the finest spirits on the rocks, the large capacity allowing ample room for ice.

BRANDY/COGNAC STANDARD

No. 3709 shown

A wide bowl creates surface area to help evaporate the liquor and enhance flavor. The narrow top concentrates aromas, and the rounded bottom is ideal for cupping with your hand to warm the brandy.

MARTINI STANDARD

No. 7512 shown

A very wide bowl allows for maximum aromatics (especially the juniper and botanicals in a gin martini). The glass can be held by the stem to prevent warming, and the cone shape keeps ingredients from separating.

MARGARITA STANDARD

No. 8439 shown

A Mexican cocktail made from tequila, orange liqueur and lime juice, margaritas are often rimmed with salt. The stem helps prevent warming the drink, and the very wide top enables an optimal salt-to-drink ratio.

LIQUEUR STANDARD

No. 3826 shown

The small capacity (1-3 oz.) and conical shape is made for serving small amounts of sweet distilled spirits flavored with fruit, herbs, flowers, nuts or spices.

HIGHBALL OR COLLINS

No. 2518 shown

This family of cocktails is made with a base spirit and a non-alcoholic carbonated mixer served with ice, requiring a tall glass for proper proportioning of ingredients.

SPECIALTY GLASSWARE

No. 3617 shown

Whether it's a signature mojito, frozen cocktail or premium Long Island Iced Tea, specialty glassware is designed to create a powerful presentation of the finest signature cocktails.

A close-up photograph of two beer glasses on a wooden bar counter. The glass in the foreground is a tulip-shaped glass filled with a reddish-orange beer and a thick head of white foam. The glass behind it is partially visible and contains a lighter-colored beer. The background is blurred, showing warm, bokeh lights from a bar setting.

RIGHT GLASS with the **RIGHT BEER**.

The craft beer culture continues to drive the demand for diverse selection at the bar. Offer your guests the complete experience by presenting beer and beer cocktails in just the right glass.

PILSNERS

No. 527 shown

Perfect for serving classic pilsners and other pale lagers, Pilsner glasses showcase a beer's color, clarity and carbonation. The conical shape helps maintain the beer's head, while the narrow design allows the aromas to reach your nose.

GIANT BEERS

No. 1611 shown

Libbey's Giant Beer glasses have a tall stature, providing an exceptionally pleasing presentation for wheat ales and pale lagers. Designed for draft beer service, these glasses feature a rounded top that holds a generous head of foam.

PUB GLASSES

No. 14806 shown

Pub glasses offer the perfect presentation of classic ales, such as IPA, pale ale, brown ale or stout. Featuring a wide mouth to support the frothy head, Pub glasses offer a traditional yet brilliant beer presentation.

TULIP STEMS

No. 920284 shown

BRING EVERY

FLAVOR

AND AROMA TO LIFE

Our AnDer Beer glass brings out the aroma, flavors and foam from every pour. For many years, beer consultant Derek Walsh and beer sommelier André Köppen searched for the ideal glass to smell, judge and drink beer. In collaboration with Libbey Europe, the beer professionals designed this perfect beer tasting glass.

CLASSIC STYLES WITH A FRESH TWIST

Classic retro drink styles are again in vogue, along with heightened expectations for a premium cocktail experience. This blossoming cocktail culture has trained guests to want better drinks and an artful performance during their preparation - and they're willing to pay more for both.

The real twist? Many of these throwback drinks are great for serving in a tumbler rather than a traditional cocktail glass. Nostalgic "tall" cocktails and other mixed drinks that feature nuanced, flavorful, low-proof experimentations work great in taller cooler-sized tumblers, and shorter sizes are ideal for smaller super-premium pours.

SERVE

UP THE BEST OF BOTH WORLDS

What's better than a refreshing iced coffee after dinner? One that carries the rich consistency of a stout, by being infused with nitrogen from the tap. Nitro coffee has become a sensation, delivering the bold flavor of a cold brew with a velvety smooth finish.

Get the most from these caffeinated creations with the right glassware. Streamlined designs allow the bubbles to easily rise to form a rich foam, while flared designs highlight the stunning cascading effect of the nitrogen bubbles.

MAKE A STATEMENT WITH CUSTOM DECORATING

One goal of food and beverage presentation is to make a lasting impression – to stand out in your customers' minds. With custom decorating, you can separate yourself from the competition and make an impression that lasts all the way to your customers' homes.

We'll fire your name and logo onto your glassware or dinnerware, creating a permanent visual impression that refuses to scratch, chip or wash off. It's an inexpensive way to add variety and spark to your beverage service, and it becomes a memorable, cost-effective advertising vehicle when used in "Keep the Glass" promotions.

How custom decorating works

Simply select up to eight colors from the thousands available in our color palette. Provide us with the name and/or logo you want to appear, and we take it from there. We'll design and produce the final artwork and apply the approved design to your exact specifications.

Ask your Libbey® sales representative about building your brand with custom decorating.

CARE AND HANDLING

Recommendations for your foodservice establishment

You've selected your premium glassware, Master's Reserve, to enhance both your customers' experiences and your bottom line.

Just as you invest in creating signature drinks and serving top-shelf spirits and wines, invest in your exquisite glassware's care to ensure its optimal performance.

HD2 RIM AND FOOT LIFETIME GUARANTEE

If the rim or foot of any stemware item chips, Libbey® guarantees to replace or refund the price of the glass when it is returned to the dealer/distributor from whom it was originally purchased.

HD2 RIM LIFETIME GUARANTEE

If the rim of any tumbler item chips, Libbey guarantees to replace or refund the price of the glass when it is returned to the dealer/distributor from whom it was originally purchased.

TRAINING YOUR STAFF

Empower your staff to handle your fine Master's Reserve glassware carefully and safely. Extend the life of your glass and reduce the potential for injury with these tips:

- Always take glasses to the table by placing them on a tray: **do not carry glasses upside down with the stems between the server's fingers.** Tray placement not only enhances presentation, but minimizes contact between the glasses.
- Always remove glasses from the table by placing them on a tray. Never place them in a bin. **Do not bouquet stemmed glasses or place flatware in glasses** to speed clearing.
- **Do not stack** glasses when storing.
- When serving iced beverages, always use a scoop – **never scoop ice with the glass.**
- Remove ice and allow the glass to reach room temperature before washing to prevent thermal shock.

CLEANING IN A COMMERCIAL DISHWASHER

Master's Reserve is not only elegant, but durable enough for dishwasher care. Minimize spotting, etching and damage by using the following suggestions:

- Select a proper glass rack to suit the glass height and bowl/foot diameter; **avoid contact between individual glasses.**
- Choose a gentle, phosphate-free detergent to minimize spotting.
- Use a commercial-grade dishwasher that filters water by reverse osmosis or de-ionization to minimize mineral deposits that cause spotting.
- **Follow your dishwasher care and maintenance manual.**

HAND-WASHING

If you choose to hand wash your Master's Reserve glassware, ensure a sparkling presentation by following these recommendations for hand-washing care:

- **Hold glass by the stem near the base of the bowl, not the foot.**
- Use a handled brush to clean inside the bowl.
- Choose a gentle, phosphate-free detergent.
- Rinse with water filtered by reverse osmosis or de-ionization to minimize spotting.
- When using a behind-the-bar system, follow the manufacturer's instructions.

DRYING AND POLISHING

Present glass that shines! Follow these select methods for an optimal customer experience and an enduring glass life:

- **Don't put your hand inside the bowl** of a glass when drying or polishing.
- When drying, hold the glass by its stem near the base of the bowl, not by the foot.
- With a microfiber or lint-free cloth, dry the inside of the bowl. Then dry the sides and stem, working your way to the bottom. Finish patting the glass dry at the bottom of the foot.
- If possible, dry glass immediately after wash/rinse to minimize the need to polish.
- When polishing, use the same grip on the glass as when drying. Wrap a slightly moist cloth around a handled brush and rotate the brush around the inside of the bowl. **Do not torque/ twist the glass;** hold it steady as the brush is in motion.
