# BEVERAGE-AIR®

## Your Complete Refrigeration Source

Beverage-Air is a leading domestic manufacturer of commercial refrigeration solutions, with a vast product offering including over 1,000 unique models across 31 product series and 11 product categories. Manufactured in Brookville, Pennsylvania and headquartered in Winston-Salem, North Carolina, Beverage-Air is committed to producing American made equipment for the foodservice market.

Founded in 1944, Beverage-Air was acquired by the Ali Group, one of the largest and most diversified global leaders in the foodservice and equipment industry, in 2008. Today, the Ali Group employs more than 14,000 people in 34 countries and operates 75 manufacturing facilities worldwide. Often times, second and third generation employees work side by side to drive innovative thinking and quality manufacturing.

Our expansive product offering allows us to meet any operator's refrigeration need whether it be front of the house, back of the house, food preparation or point of sale merchandising. With seemingly unlimited customizable options, award winning design innovation and unparalleled customer commitment, Beverage-Air continues to be a trusted partner in the food service industry. Whether it's national accounts, high-end restaurants or small operations, Beverage-Air has a solution for any food service application.

**Beverage-Air has a full range of premium refrigeration and food service equipment solutions to meet the diverse needs of restaurant, chain, retail, convenience store, educational, and healthcare settings.**

# ADAPTIVE DEFROST

- Reduces energy consumption up to 15%
- Units are able to provide a consistent product temperature throughout the cabinet even during defrost cycles
- Reduces the overall time defrosting versus traditional timed defrost
- Example: Adaptive Defrost: 48 min total in 4 cycles versus 60 min in 3 cycles (Traditional 8HR)
- High Ambient and Humidity testing shows the system's ability to perform better in high usage environments under unfavorable conditions

**Easily converts from refrigerator to freezer**  
with Beverage-Air's exclusive Cross Temp® technology

**WHAT IS CROSS TEMP® TECHNOLOGY?**

New from Beverage-Air, Cross Temp™ technology allows the user to easily switch the unit back and forth from refrigerator to freezer as needed, with a range of -15° to 40°F.

**THE PURPOSE OF CROSS TEMP®**

Simply put, Cross Temp technology lets the user get the most flexibility from the unit, by letting them switch from fridge to freezer as their menus change with the seasons and initiatives, including ice-cream storage.

**IS CROSS TEMP ENERGY EFFICIENT?**

The Cross Temp® units are intuitive and self-adjust for optimal effectiveness based on usage. Even in high-usage situations, Cross Temp units adjust to maintain maximum energy efficiency.

**HOW LONG DOES THE CONVERSION TAKE?**

On average, a Cross Temp unit can convert from refrigerator to freezer or vice versa, in under an hour. (Conditions and results will vary)

ensures airflow under pans and protects bottom of cabinet from pan spills

**CLEAR LIDS AVAILABLE**  
for optimized product display

**AVAILABLE IN STANDARD TOP, MEGA TOP, AND CUTTING TOP**

**STANDARD TOP**

Two rows of food pans for easy access to ingredients. Perfect for smaller sandwich, salad or back of the house line service

**MEGA TOP**

Three rows of food pans offer 50% more capacity than a standard top prep table. Ideal for users with a wide array of ingredients

**CUT TOP**

An extra deep, 14" cutting board on a standard top unit offers additional workspace for larger item prep, catering or complicated menu items

# SANDWICH PREP

## AVAILABLE LID CHOICES

(specify at time of order)

### **ROLL TOP**

The standard lid for our sandwich prep units. A roll top lid allows for easy access and can be closed during non-service periods to allow the refrigeration system to recover.

### **FLAT-HINGED**

Durable lid helps to keep ingredients at food-safe temperature while the hinge locks the lid into place, allowing for easy access to the back row of pans.

**SEE-THRU**

Full glass, piston driven lid allows for easy view of ingredients and pan fill lines without removing the lid, and can act as a sneeze guard when optioned with a single overshelf and side guards.

**CLEAR**

A polycarbonate option that is ideal for operations that want to showcase their fresh ingredients to customers while keeping a lid on their pan section.

**LIFT-OFF**

Allows for full view of pan section and maximizes full use of work area. The low profile of lift off lids permits the unit to fit under existing shelving or service windows.

### ORDER YOUR UNIT TO YOUR SPECIFICATIONS WITH AVAILABLE OPTIONS SUCH AS:

#### GLASS DOORS (-25)

Increase visibility by swapping the solid doors with glass doors on select refrigerator and freezer models.

#### 3-INCH CASTERS (-23)

Lower the height of the unit for workflow or ADA compliance by selecting the 3-inch casters instead of the standard 6-inch ones.

**WHAT IS BLAST CHILLING AND FREEZING?**

Blast Chilling extracts the heat out of food, rapidly lowering the temperature. Department of Health guidelines require that all food temperatures be reduced from 150°F to 38°F degrees within a 90 minute period to keep food out of the “danger zone” of 145°F to 46°F, where bacteria multiplies fast.

Blast freezing rapidly lowers food temperatures from 150°F to 0°F vs. chilling temperatures above.

**WHAT IS SOFT CHILL?**

The Soft Chill cycle is ideal for the rapid, but gentle chilling of any dish (i.e., rice, pasta, fish, and fruit). This cycle brings the temperature of the food down while maintaining positive air temperatures of 37°F or above. This prevents ice crystals from forming that can damage the structure of delicate foods and allows for delicate foods to keep their brilliant colors.

**WHAT IS HARD CHILL?**

The Hard Chill cycle is ideal for chilling “standard products” such as cooked meat, lasagna, and individually portioned meals.

**BENEFITS OF BLAST CHILLING**

- Always serve fresh, top quality products
- Color, texture, and nutritional value are locked in
- The fast cooling process of blast chilling dramatically reduces bacteria reproduction, minimizing food spoilage
- Delicate foods like rice, pasta, fish, and fruit are protected
- Kitchen Efficiency – Saves Time & Money
- Allows advance food prep by preparing larger batches that can be refrigerated or frozen for later use
- Can enhance profits by increasing product capacity and reducing food waste
- Allows left over food from serving line to be quickly and safely chilled for later use
- Use Blast Chiller/Freezers on raw or cooked food

## SALES TERMS

---

### PRICES & SPECIFICATIONS

Beverage-Air reserves the right to change the price and specifications of the equipment and/or material without notice. Prices are F.O.B. plant of manufacture.

### CANCELLATION

Buyer may cancel its order, reduce quantities, revise specifications, or extend schedules only by mutual agreement as to reasonable and proper cancellation charges which shall take into account expenses already incurred and commitment made by seller, and buyer shall indemnify seller against any loss.

### FREIGHT CLASS

All Beverage-Air products ship under 150 freight classification.

### CUSTOMER'S FREIGHT DAMAGE PROCEDURE

Before signing the carrier's freight bill the customer should do the following:

#### Visible Damage:

1. Inspect shipment for any damage. If you see damage or feel there may be concealed damage, mark the carrier's copy of the freight bill "damaged".
2. If there is damage to your shipment, action must be taken by you to notify Beverage-Air immediately. A freight claim must be filed with the carrier and an inspection scheduled by the carrier. It is the duty of the carrier to give you a written report upon notification. (VISIBLE AND CONCEALED).
3. For visible damage, where possible, do not accept delivery unless the condition noted on your copy of the freight bill and signed by the driver.

#### Concealed Damage:

If the damage is concealed, notify the carrier within 5 days of the receipt of the product by phone and in writing as well as Beverage Air. Ask them to send their agent to complete an inspection report. Retain all cartons and merchandise for inspection. It is critical that the customer take the above actions; without these steps claims for concealed damages may be denied.

### 3RD PARTY FREIGHT

3rd Party Freight shipments are FOB Beverage-Air and are not eligible for refusal at time of delivery. ALL 3rd PARTY SHIPMENTS ARE THE RESPONSIBILITY OF THE SHIPPER.

Claims for damaged product are to be filed by the shipper and Beverage-Air will not be liable. This product is not eligible for return to our warehouse facility.

### RETURN OF PRODUCT

**EQUIPMENT** - Prior Authorization must be granted by Beverage-Air before equipment can be returned for credit. Returns will only be authorized within 90 days of invoice date. Return authorizations are valid for 30 days. Equipment approved for return is subject to a 25% restocking charge.

Returned equipment must be shipped freight prepaid, packed in original carton, and received in good condition.

**PARTS** - Prior Authorization must be granted by Beverage-Air before parts can be returned for credit. Returns will only be authorized within 30 days of invoice date. Return authorizations are valid for 30 days. Parts approved for return are subject to a 25% or \$25.00 restocking charge (whichever is greater). Returned parts must be shipped freight prepaid, in the original packaging, and received in good condition.

## WARRANTY (Warranty valid in USA and Canada)

### THREE (3) YEAR PARTS AND LABOR WARRANTY:

Beverage-Air Corporation warrants to the original purchaser of Beverage-Air branded equipment, including all parts thereof, that such equipment is free from defects in material and workmanship, under normal use, proper maintenance, and service as indicated by Beverage-Air installation and operation instructions, for a period of three (3) years from the date of installation, or thirty-nine

(39) Months from the date of shipment from the manufacturer, whichever is earlier.

### ADDITIONAL FOUR (4) YEAR COMPRESSOR PART WARRANTY\*:

In addition to the warranty set forth above, Beverage-Air warrants the hermetically/semi-hermetically sealed compressor (part only) for an additional FOUR (4) years beyond the first three (3) years warranty period; not to exceed eighty-seven (87) months from the date of shipment from Beverage-Air, provided upon receipt of the compressor, manufacturer examination shows the sealed compressor to be defective. This extended warranty does not cover freight for the replacement compressor or freight for the return of the failed compressor.

\* Units shipped after 03/01/2020. Previous warranty applies to units shipped prior.

#### EXCEPTIONS:

- CT96 Models carry a one (1) year parts and labor warranty, limited to fifteen (15) months from date of shipment from Beverage-Air. These are excluded from additional compressor warranty.
- SR/SF (Slate) models carry a two (2) year parts and labor warranty, limited to twenty-seven (27) months from date of shipment from the Beverage-Air.
- Blast Chillers carry a three (3) year parts and labor warranty; additional two (2) years compressor part only.
- TMR/TMF carry a two (2) year parts and labor warranty, limited to twenty-seven (27) months from date of shipment from the Beverage-Air.
- Units installed in Residential applications will be not covered under this warranty. Units are intended for Commercial use only.

Also, this extended compressor-part only warranty does NOT apply to any electrical controls, condenser, evaporator, fan motors, overload switch, starting relay, capacitors, temperature control, filter/drier, accumulator, refrigeration tubing, wiring harness, labor charges, or supplies which are covered by the warranty above. Note: 3rd party extended warranties are not covered by this warranty statement.

Normal wear type parts, such as light bulbs/lamps and gaskets are not covered by this warranty. For the purpose of this warranty, the original purchaser shall be deemed to mean the individual or company for who the product was originally installed.

Our obligation under this warranty shall be limited to repairing or replacing, including labor, any part of such product, which proves thus defective. Beverage-Air reserves the right to examine any product claimed to be defective.

The labor warranty shall be for self-contained units only and for standard straight time, which is defined as normal service rate time, for service performed during normal working hours. Any service requested outside of a servicer's normal working hours will be covered under this warranty at the normal rate and any additional overtime rate will be at the responsibility of the equipment purchaser.

Any part or accessory determined to be defective in the product should be returned to the company within thirty (30) days under the terms of this warranty and must be accompanied by a record of the cabinet model, serial number, and identified with a return material authorization number (RMA#) issued by the manufacturer.

Special installation/applications, including remote locations, are limited in coverage by this warranty. Any installation that requires extra work, and/or travel, to gain access to the unit for service is the sole responsibility of the equipment purchaser.

Improper operation resulting from factors, including but not limited to, improper or negligent cleaning and maintenance, low voltage conditions, inadequate wiring, outdoor use (unless otherwise specified) and accidental damage are no manufacturing defects and are strictly the responsibility of the purchaser.

With the exception of Blast Chillers product is designed for maintaining temperature and not bringing food to a desired temperature therefore cannot be held responsible for this function under warranty.

Units must be in a conditioned environment or warranty will be void.

Condensing coils must be cleaned at regular intervals. Failure to do so can cause compressor malfunction and will void warranty. Although cleaning requirements vary in accordance with operation of various products, Beverage-Air recommends a minimum monthly cleaning.

### NO CLAIMS CAN BE MADE AGAINST THIS WARRANTY FOR SPOILAGE OF FOOD, PRODUCTS, LOSS OF SALES OR CONSEQUENTIAL DAMAGES.

THE FOREGOING WARRANTIES ARE EXPRESSLY GIVEN IN LIEU OF ALL OTHER WARRANTIES, EXPRESS, IMPLIED, OR STATUTORY, INCLUDING THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, WHICH ARE HERBY DISCLAIMED, ALL OTHER OBLIGATIONS OR LIABILITIES ON OUR PART, AND WE NEITHER ASSUME, NOR AUTHORIZE ANY OTHER PERSON TO ASSUME FOR US, ANY OBLIGATION OR LIABILITY IN CONNECTION WITH THE SALE OF SAID REFRIGERATION UNITS OR ANY PARTS THERE OF.

This warranty shall not be assignable and shall be honored only in so far as the original purchaser. This warranty does not apply outside the limits of the United States of America and Canada, nor does it apply to any part that has been subject to misuse, neglect alteration, accident, or to any damage caused by transportation, flood, fire, acts of terrorism, or acts of God.

### LIMITATION OF LIABILITY:

Beverage-Air Corporation or their affiliates shall not be liable for any indirect, incidental, special or consequential damages, or losses of a commercial nature arising out of malfunction equipment or its parts components thereof, as a result of defects in material or workmanship.

THE ORIGINAL OWNER'S SOLE AND EXCLUSIVE REMEDY AND BEVERAGE-AIR'S SOLE AND EXCLUSIVE LIABILITY SHALL BE LIMITED TO THE REPAIR OR REPLACEMENT OF PARTS OR COMPONENTS CONTAINED IN THE EQUIPMENT IDENTIFIED ABOVE WHICH UNDER NORMAL USE AND SERVICE MALFUNCTION AS A RESULT OF DEFECTS IN MATERIAL OR WORKMANSHIP, SUBJECT TO THE APPLICABLE PROVISIONS AND LIMITATIONS STATED ABOVE.

Note: Additional Terms and Conditions of sale may apply. Notice: Specifications Subject to Change without Notice. Contact Beverage-Air for specific model agency approval. All prices are ex-works Brookville, Pennsylvania 09/01/2023
