

5520 UV/MG Bill Counter

- **COUNTS 1,300 BILLS PER MINUTE** - Professional grade bill counter with advanced features for business owners and serious counting enthusiasts.
- **VALUCOUNT[®]** - Exclusive to Cassida, the ValuCount[®] feature allows you to select a single denomination, and the machine will provide a total monetary value count for all bills counted!.
- **COUNTERFEIT DETECTION** - The Cassida 5520 utilizes infrared detectors to ensure each count is accurate, with no double bills, half notes, or chains sneaking through. If an issue with a bill is detected, the machine will stop counting, beep, and display the error type on its screen.
- **COUNT, BATCH & ADD MODE** - Handles any money counting needs you may have. Count mode accumulates totals for each denomination counted, batch mode keeps track of multiple counts at once, and Add + Batch mode lets you keep a running total of all denominations counted.
