EMPOWERING PERFORMANCE

It Starts with the Battery System

The substantial growth of cordless equipment in the commercial cleaning space is positively impacting productivity, performance, convenience and safety. Hoover Commercial, a legacy brand of TTI Floor Care, is driving the conversion to cordless equipment with the M-PWR™ 40V Lithium-ion battery system.

CLEAN UP TO 5X FASTER*

Helping to Increase Productivity

Building Service Contractors are constantly looking for ways to increase productivity while reducing operating expenses. One of the most effective ways to increase productivity is by utilizing cordless technology. By converting to a cordless upright, they can enable their team to clean up to 5X FASTER* than with a traditional corded upright vacuum.

DEDICATED TO DEVELOPING BATTERIES

Leading the Charge

Techtronic Industries (TTI), the parent company of TTI Floor Care, is a recognized leader in Lithium-ion battery technology. In fact, the company has secured more than 40 U.S. & global patents surrounding its technology in just over 10 years' time. TTI partners with global technology leaders to acquire the battery cells. A team of engineers design the electronics and creates program firmware to meet exact standards. Then, circuit boards are built to ensure superior performance, quality and safety. This results in the batteries that power Hoover Commercial's suite of cordless products.

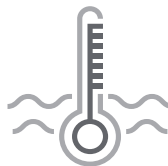

Hi/Lo temperature monitoring prevents overheating

Auto charging and discharging termination

Sleep mode helps to regulate temperature

Charging control when optimal temperature is reached

Surge protection helps prevent damage to the battery cells

Maximum charge time regulator protects the battery

CORDLESS CONVENIENCE & EFFICIENCY

Easy to Change & Charge

The M-PWR™ 40V Lithium Ion Battery provides the convenience of a quick change battery system, while delivering up to 45 minutes of fade-free performance time with a 90 minute charge time.

Easy to change and charge, the System helps free workers from being tethered to electrical sockets, while eliminating tangled cords that can cause slips and falls. Unsafe = Unproductive.

CUTTING THE CORD

Helping to Improve Safety

According to Contracting Profits, "Slips and falls account for nearly 80 million dollars in lawsuits and is increasing annually." TTI Floor Care offers a suite of cordless products that help reduce the risk of slips and falls associated with workplace injuries. Cleaning busy, high traffic areas can be accomplished more efficiently and safely by removing the cord and utilizing Lithium-ion battery technology.

NO TIME FOR DOWNTIME

Productivity & Performance

For most professional cleaners, the commercial vacuum runs an average of 2-4 hours a day. With these constant demands placed on commercial equipment, workers need products that help improve productivity and performance.

The M-PWR™ 40V battery system is ideal for office buildings and large commercial facilities. The battery system is compatible with the Hoover Commercial suite of cordless products.

M-PWR™ 40V BATTERY SYSTEM

CH95413 HUSHTONE™ CORDLESS UPRIGHT

Enable your team to clean up to 5X FASTER.* Unlike traditional corded uprights, the HUSHTONE™ Cordless Upright powered by M-PWR™ 40V technology helps increase productivity while minimizing risk associated with cords.

- HUSHTONE™ 2 Speed Motor
- Intellibelt™
- Sealed allergen system with Hexaguard™ Technology

CH93406 HUSHTONE™ 6Q CORDLESS BACKPACK

Increase productivity and reduce cleaning time. Ideal for offices and large commercial facilities where speed and convenience are crucial.

- HUSHTONE™ 2 Speed Motor
- Ergonomic Harness
- Sealed allergen system with Hexaguard™ Technology
