

Get Water Out Quickly

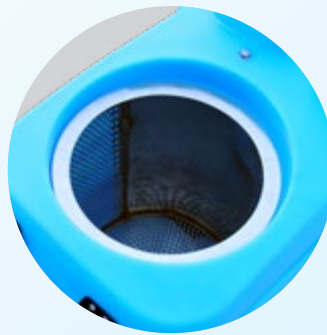

7000LX Flood Hog™

In a flood situation, getting the water out is the first priority. The quicker this is done, the less long term damage there will be. The Flood Hog™ is the best tool in the industry for this task, allowing you to quickly and efficiently extract water.

The Flood Hog™ features Mytee's® LX™ vacuums and a powerful 66 GPM pump-out which work in tandem to extract and pump out water faster than ever before.

Features:

- Built-in stainless steel debris filter.
- Dual exclusive LX™ vacuums producing 182" of water lift.
- 66 GPM stainless steel auto pump-out.
- Dual 50' lighted power cords.
- Dual circuit indicator light & tone.
- 10" foam-filled wheels and 4" locking casters.

Items Included:

- 25' pump-out hose with cam & groove fitting
- 2" to 1.5" Cuff-Lynx™ reducer

Optional Accessories:

A138 Flood Hog™
