

JVI IMPORTS

Mediterranean grown

CHESTNUTS FROM GREECE

On the tree, chestnuts have a sharp, spiky husk known as a burr. Inside the husk, which is removed before shipping, are 1-3 kernels, which have a smooth lacquered shell. These chestnuts are packed in Greece and air-flown directly to JVI for maximum freshness.

JVI Imports' works directly with Artion to deliver fresh European chestnuts to market. Artion is the main exporter of Greek chestnuts and has exported over 5,000 tons of chestnuts since they began working with the product in 2014.

AVAILABILITY

JAN	FEB	MAR	APR	MAY	JUN	JUL	AUG	SEP	OCT	NOV	DEC

STORAGE & HANDLING: Ideal storage temperature is **30-32°F** with a relative humidity of 90-95%. Do not store below 30°F for best shelf-life. When stored at optimal conditions, the nut may last up to 1 month.
