

NEW Hammer Finish Coffee Urns

42003C-H

49003-H

Introducing our NEW Hammer Finish available on all insulated coffee urns.

The Bon Chef insulated urn does not use canned fuel or electricity. By insulating the starting coffee temperature, we can maintain the taste, unlike fuel or electrically heated coffee which becomes bitter. BON CHEF coffee urns can maintain an acceptable serving temperature for up to three hours. Insulated Urns are available in Polished, Hammered, Nero, & Bianco Finishes.
