Supremely convenient piping-hot water

Forget about putting a kettle on the stove. Our all-new UltraHot™ Instant Hot Water Dispenser delivers near-boiling hot water, conveniently and easily at your sink at the touch of a tap.

UltraHot™ is easily installed. The flat back and tall tank of the UltraHot™ were designed to maximize space for other uses under the sink. No tools are required for the water connections. UltraHot™ was engineered to be compatible with InSinkErator® instant hot water dispenser tanks and taps.

UltraHot™ is the most sophisticated instant hot water dispenser available. Patented technology automatically determines altitude and sets the UltraHot™ to deliver near-boiling hot water at the maximum for that elevation. Forget about having to set it yourself. If you need hot water at a lower temperature, the digital control makes it easy. UltraHot™ digital interface controls save energy and make life easier, including setback to save energy when use is not expected, like overnight; plus memory and timer settings for when use is expected; and more.

- › Instant piping hot water available on demand without waiting
- › Convenient use for hot beverages, cooking, cleaning
- › Engineered to be compatible with InSinkErator® instant hot water dispenser tanks and faucets
- › Stiebel Eltron taps available as a separate item
- › Easy space-saving under-sink installation
- › Plugs into a standard 120-volt outlet
- › Patented system automatically senses and sets highest possible boiling temperature for any altitude
- › Temperature setting not required but can be easily adjusted as low as 149°F if desired
- › Holds 2¾ quarts of near-boiling water

Two sizes available

UltraHot™ Instant Hot Water Dispenser is available in two sizes: the UltraHot Plus™, intended for residential use only; and the UltraHot Premium™, intended for residential use and also light commercial use such as offices, break rooms, lunch rooms, public facilities, houses of worship, etc.

- › UltraHotPlus™ is 750 W and draws just 6.25 amp. It dispenses 34 cups/hr of 203°F hot water
- › UltraHot Premium™ is 1440 W and draws only 12 amp. It dispenses 66 cups/hr of 203°F hot water

No waiting for the pot to boil

Why wait for piping hot water? UltraHot Plus™ or UltraHot Premium™ delivers near-boiling hot water instantaneously on demand. Imagine all the uses:

- › Fast preparation for hot drinks
- › Piping hot water for pasta, rice, and instant soups
- › Preparing vegetables
- › Baby food and bottle warming
- › Cleaning greasy pots and pans
- › Cleaning chopping boards and knives

Superbly engineered

Like all Stiebel Eltron products, design of the UltraHot Plus™ and UltraHot Premium™ began in the engineering department. UltraHot™ is engineered and designed to be reliable and energy efficient in addition to performing superbly for its task. UltraHot™ is manufactured with ultra-high-quality 316L stainless steel, engineered for reliability and energy efficiency, plus for superb performance. UltraHot™ is designed to last 2 to 3 times longer than instant hot water dispensers from competitors.

- › Patented system automatically senses and sets highest possible boiling temperature for any altitude
- › Tool-free water connection compatible with InSinkErator® for easy do-it-yourself installation
- › Temperature setting not required but can be easily adjusted as low as 149°F if desired
- › Sophisticated illuminated digital display accesses temperature settings, timer settings including night modes, and more
- › Extremely well insulated tank reduces stand-by heat losses for lowest power consumption
- › Heating element and tank are corrosion-resistant high-quality stainless steel
- › Designed and manufactured to be long-lived, hygienic, without odors and off-taste
- › Safety features include frost protection and dry-fire detection
- › ETL certified to UL safety standards

Stiebel Eltron faucets

UltraHot™ is compatible with InSinkErator® non-pressurized instant hot water dispenser taps. Two styles of Stiebel Eltron faucets will be available. A **Mono-Tap**, which dispenses near-boiling water from the UltraHot™, or a **3-in-1 Tap** which dispenses near-boiling water plus hot and cold water. Stiebel Eltron taps will be available in chrome or brushed nickel finish.
