MULTI-BUBBLE

INTRODUCING

MULTI-BUBBLE

Our Multi Bubble Nozzle allows you to create multiple bubbles at once, increasing the strength and robustness of your garnish!

With increased durability, your garnish can now last up to 10x longer without bursting, providing plenty of additional service time and photo opportunities.

We have developed an innovative nozzle attachment designed to endure the demands of bar-to-table service, ensuring reliability without any compromise.

Create a reaction!
