

Seamlessly Integrate Heating Outdoors

LOW CLEARANCE RECESS KIT

With Bronic's new Low Clearance Recess Kit, integrating the Platinum Electric heater series in your projects is easier than ever before.

Designed to fit seamlessly within standard ceiling joists, the built-in frame allows for reduced cavity installation clearances of as low as 7", allowing for complete versatility in specifying functional outdoor spaces.

Effortlessly add
outdoor heating in
your projects with
the Low Clearance
Recess Kit.
