

Bizerba cleaning and care products
Quality which protects

Everything from a single source

We always have a complete overview. This makes us a solutions provider who can offer you products and services from a single source. With their know-how our service specialists make sure worldwide that everything runs smoothly. Therefore, they use Bizerba cleaning and care products for the maintenance of equipment, machines and components.

The specially developed quality products meet the high requirements of our service experts. Suitable for almost any industry. Day by day. Application by application. This is reflected in optimal cleanliness, smooth processes and customer satisfaction. Rely in your day-to-day work on the professional Bizerba cleaning and care product series. Proven quality which reliably protects your investment.

Welcome to the Open World of Bizerba

Cleaning and care like a pro does

You can count on the advantages of professional solutions. Our proven products

- optimally maintain function and use of your equipment and machines
- are easy, effective and economical in use
- are impressive in terms of their intense and gentle effect
- comply with the highest safety and hygiene standards particularly in the sensible food and pharmaceutical sectors
- increase the longevity of your investment if regularly applied.

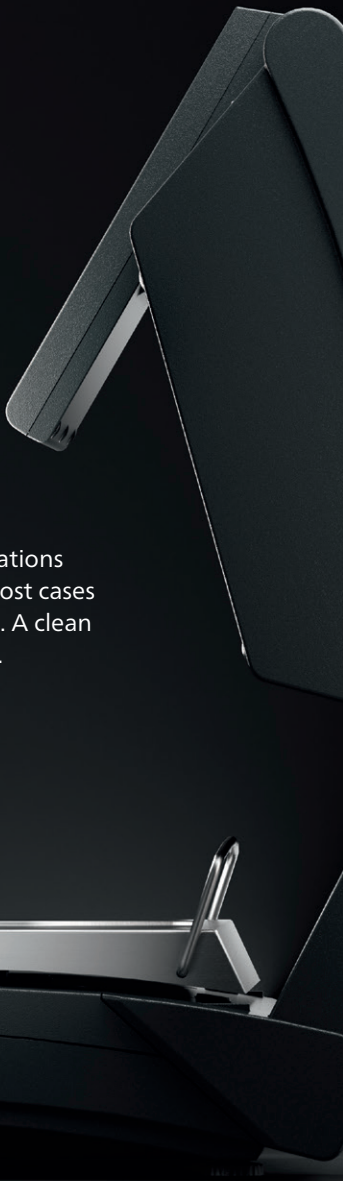

Perfect all-round protection for any area.

Industries & areas of application

- Restaurant and catering industry
- Retail
- Artisanal food industry
- Food industry
- Logistics
- Metal/electrical/chemical/
pharmaceutical industry

Cleaning agents

Make an impression. With formulations matched to your surface and in most cases filled up in CFC-free pump bottles. A clean solution also for the environment.

Screen cleaner

This highly effective Bizerba screen cleaner maintains, disinfects and cleans TFT or LCD displays and touchscreens in a single work step. Combined with the Bizerba microfiber cloth you remove grease and fingerprints without leaving any residue. High hygiene standard since NSF-certified*.

Advantages
<ul style="list-style-type: none">– Antistatic effect: Maintains and prevents quick re-soiling– Gentle care and cleaning: Coordinated compatibility of materials and intense adhesion to the surface

Content	Article No.
50 ml	94008900268
125 ml	94008900269
200 ml with microfiber cloth	94008900400

*except USA

Roller cleaner

Specifically developed for thorough care of pressure rollers*. Removes lubricants/adhesives and dust from print mechanism, plastic and rubber rollers. Increases the rollers' grip and reliably ensures smooth printing processes. The result is visible: Clearly legible labels and receipts.

Advantages	Content	Article No.
<ul style="list-style-type: none">– Easy-to-use pump spray, CFC free– Optimal compatibility with almost all plastics– Effective and gentle cleaning	50 ml	94008900261
	250 ml	94008900255
	500 ml	94008900262

*except linerless rollers

Print head cleaner

This efficient cleaner permanently keeps thermal print-heads clean. No clogging of printheads and a clean print image. The cleaning swabs included in the set are particularly practical allowing easy cleaning of hard to reach areas.

Advantages	Content	Article No.
<ul style="list-style-type: none">– Thorough and gentle cleaning– Leaves a dry surface without any residues	Set: 12 ml with 5 cleaning swabs	94008919000
	Pen: 12 ml	50777050000
	50 ml	94008900265
	250 ml	94008900266
	500 ml	94008900267

Plastic cleaner

Use only one cleaning agent for the plastic surfaces of your retail scales, PC housings, desks etc. This practical pump spray has an antistatic effect. Its natural orange-based solvent cleans gently without scratching.

Advantages
– Non-flammable as it contains no alcohol
– Environmentally certified production

Content	Article No.
15 ml	95948600000
250 ml	95948200000

Stainless steel cleaner

This efficient pump spray removes fingerprints and other traces from high-quality stainless steel and other metal surfaces. This special cleaner is NSF-certified and can be used without hesitation. It ensures gentle, thorough care and protects from re-soiling and corrosion due to its anti-static agent.

Advantages
– Quick care without smearing
– Brings out a special shine on any metal
– Prevents fingerprints and traces

Content	Article No.
15 ml	95948700000
250 ml	95948000000

Compressed gas cleaner

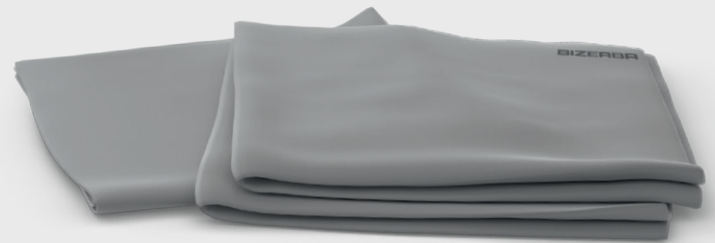

This effective compressed gas cleaner reliably and thoroughly cleans hard to reach areas and sensitive components without leaving any residues. The targeted, dry air jet is gentle to your equipment or systems and optimizes processes.

Advantages	Content	Article No.
<ul style="list-style-type: none"> – Ideally suitable for use on equipment, systems, air grids or keyboards – Free from wet or scratching substances – Flammable and inflammable variant, matching your needs and environment 	150 ml non-flammable	94008900260
	400 ml flammable	94008962000

Foam cleaner

For intense cleaning of machine housings and hard surfaces made of plastic, glass or metal. This long-lasting foam gently and quickly dissolves even the most stubborn soilings without leaving any residues. The antistatic care prevents dust from depositing again.

Advantages	Content	Article No.
<ul style="list-style-type: none"> – Gentle removal of grease, oil or lubricants without abrasive – Minimal time/effort needed – Hygienically clean optics in the production/sales area 	100 ml	94008900263
	200 ml	94008900264
	400 ml	94008900256

Label remover

Remove labels with noticeably less effort than with comparable methods. The intense cleaning effect makes it possible. Yet another highlight: The cleaner removes labels without scratching. Can be used without hesitation due to NSF-certification.

Advantages
– Optimal compatibility with most plastics
– Removes adhesive residues after only a brief application time

Content	Article No.
15 ml	95948500000
200 ml	95948900000

Microfibre cloth

This quality product is ideally suitable for gentle and thorough cleaning of sensitive areas. Versatile use: It removes dust, dirt and other contaminants. As a dry cloth or together with a liquid cleaner it can be used effectively.

Advantages
– Soft and lint-free quality
– Absorbent and washable at 40 °C

Content	Article No.
1 unit	95948800000

Oils & greases

Ensure smooth running of your equipment. We have the right lubricant for any use. Even in an extreme environment our high quality oils & greases reliably fulfill their purpose. Every time.

Machinery oil

Our high quality machinery oil is NSF H1-certified and therefore fulfills highest hygiene standards. It can be used without hesitation in the food and pharmaceutical industries. Ideally suitable for oiling bearings, spindles, joints and transport chains. Processes are optimized and mechanical longevity is ensured.

Advantages
– Combined oxidation and corrosion protection
– Best resistance even at service temperatures in the freezer

Content	Article No.
30 ml	60220007800
125 ml	94008900270
200 ml	94008900271
400 ml	94008900022

Synthetic grease

For lubricating rolling bearings, lift cylinders, guide rods and joints. Special lubricant with optimal resistance at extreme service temperatures between -40 °C and 150 °C. Resistant among other things to cleaning agents. Best wear and tear protection. Less maintenance effort and long re-lubrication intervals.

Advantages	Content	Article No.
<ul style="list-style-type: none">– Water-resistant and resistant to bacteria, disinfectants and cleaning agents– Reliable corrosion protection	25 g	94008908075

Lubricating grease

For machines, systems and devices, mainly for the food industry. This multi-purpose lubricant is suitable for all lubrication points which constantly require to be lubricated. When applied regularly it keeps components smooth. This resistant care product also serves as a reliable corrosion protection.

Advantages	Content	Article No.
<ul style="list-style-type: none">– Suitable for rolling and bush bearings as well as seals– Water-resistant and resistant to bacteria, disinfectants and cleaning agents	25 g	94008908076
