Most versatile tool in the cleaning industry

CRB LOW MOISTURE CLEANING MACHINES

All of CRB's cleaning machines are ultra-low-moisture for professional carpet and hard surface/floor cleaning which ensures our line is one of the most environmentally friendly, earth friendly and green one on the market.

Our goal and mission is to produce the best results and happy customers in the carpet and hard surfaces cleaning world, while preserving and sustain our planet.

At CRB Clean, we have various types of CRB (Counter-Rotating-Brush) cleaning machines. One of the most popular carpet and hard floor cleaning models is the TM4, 15-inch unit. CRB Clean manufactures also a larger width 20-inch model which is often preferred by users with larger cleaning areas.

CRB EQUIPMENT USES A ULTRA LOW MOISTURE CLEANING METHOD THAT SIGNIFICANTLY REDUCES THE USE OF PRECIOUS WATER OF UP TO 85-90% COMPARED TO OTHER TRADITIONAL WET CLEANING METHODS, HELPING PRESERVE ONE OF OUR MOST PRECIOUS RESOURCES ON OUR PLANET.

TANDEM

All our CRB cleaning machines are easy "tandem" capable! This will double your cleaning width; easily double the space to be cleaned and cut time in half on carpet and hard surface cleaning jobs.

It is a perfect option and solution for commercial applications and large cleaning areas.

Agitation

Save time using the CRB machine as an agitator/scrubber in the HWE process.

Low Moisture Encapsulation cleaning

Use CRB's peroxide encapsulation cleaner for maintenance and/or for deep cleaning jobs in conjunction with CRB's dry cleaning compound.

Hard surface LVT

Cleans hard surfaces such as tile, grout, vinyl floor, hard wood, natural stone, bamboo, profiled and rubber floors.

Durable

Durable stainless steel/ aluminum body and low maintenance, no wear and tear and non-stop cleaning around the clock.

Pile Lifting

Maintain fresh appearance of the carpet using the CRB machine to deeply reach into the carpet perfection.

Renovator collection trays

Pick up pet hair, soil and dirt and more with the very same machine. More effective than most commercial vacuum cleaners.

Compound cleaning

Use CRB's peroxide encapsulation cleaner and Abzorb compound to provide a deep extraction cleaning and fast drying time under one hour.

Brushes

Yellow/ Extra Stiff

Severely matted low loop pile carpets commercial only, with wear indicator. Not for regular use. For "one-time" restorative cleans. Best for extremely matted commercial grade low loop pile carpets.

Green/ Stiff

Commercial synthetic loop pile, vinyl, tile and grout with wear indicator. Best for rough and Rigid floor or surface.

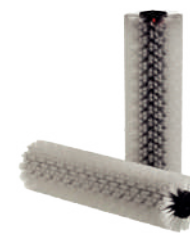

Blue/ Standard

Commercial grade level loop. Low cut and some tile and grout with wear indicator. Ideal for normal and needle felt carpets.

Gray/ Soft

Residential synthetic fiber cut pile or commercial wool loop pile carpets with diamond sanded tips and wear indicator.

White/ Extra Soft

Soft and delicate natural fibers with wear indicator. Best for soft and delicate carpets.

Our products are an organic and green form of cleaning. CRI certified based on EPA/DfE standards, ensuring it fits our mission to be environmentally friendly and earth sustainable.

Ultra Pro Encapsulation & Pre-Spray

Low moisture spray mixed with hydrogen peroxide. Made from recycled materials, leaves no residue. Use to clean carpet for fast dry time.

Highly concentrated.
Long shelf life
Floral/Lavender smell
CRI certified

Ultra Pro AbZorb

An organic compound made from recycled materials. Meets the EPA/DfE standards and provides cleaners with the ability to deep clean carpets with dry time in 40 minutes or less. Recommended for use on heavy traffic lanes and stains.

Works in conjunction with the peroxide encapsulator
Citrus fragrance

Chemicals

Ultra Pro General Spotter

A versatile spot and stain remover for a wide variety of spots and stains.

Best for greasy traffic smudges, shoe polish, India ink, fruit juices, various greasy and oily stains, miscellaneous stains and many common spots that occur on commercial and residential carpeting.
