Soft Top Containment
The NEW Eagle Soft Top Containment Unit (Model 1645STC) provides protection from the elements for up to four 55-gallon (208.2 L) drums with a durable soft top cover built on a 4-drum HDPE containment pallet. Ships unassembled for reduced shipping costs. Easy step-by-step assembly for a secure and quick weather resistant containment solution. The height of the cover allows storage with drum pumps in place.

The four drum pallet is 100% HDPE construction that resists corrosion and weathering. The flexible soft top is constructed of high-vis yellow PVC fabric over a rugged galvanized steel frame. Access drums through the front or back. For maximum loading and unloading ease use with the Eagle HDPE Poly Ramp (Model 1689 – Sold Separately.)

4 Drum Poly Storage Building
Securely stores up to four 55-gallon (208.2 L) drums. Features four-way forklift pockets, vented door louvers, removable grating and top hooks for moving. **[Note:]** Top hooks are intended only for moving empty building. Door opening accepts up to a 48 in. x 48 in. (122 cm. x 122 cm.) pallet. (Use a cable to lock.)

2 Drum Workstations
A secure way to store drums inside or outside. Available in low (1626) or high (1628) profile for the storage of two drums. Units can be moved via forklift and have optional dolly allowing for easier movement on worksite. Includes locks for secure storage.

Model 1629
Workstation Dolly 1,500 lbs.
(680.4 L) capacity (UDL)

Did you know?

Use a 1645STC Kit to convert an Eagle 1645 model into a 1645STC. Use a 1683STC Kit to convert an Eagle 1683 model into a 1683STC. (Kits ship flat. Assembly required.)

IBC Spill Units:

- Come with 100 percent polyethylene containment tub and your choice of metal or poly platforms
- Model 1684** includes two front bucket wells for easy dispensing

100% Recyclable
