Our Story

For over 125 years, Eagle Manufacturing Company has provided innovative quality industrial safety products to customers. Our legacy is built around our employees' hard work and the quality of our products.

Eagle was built around three principles—integrity, innovation and customer service. Our product offering and processes have changed since 1894, but our early mission of Protecting People, Property and the Planet® remains steadfast. The center of Eagle's mission is, and always has been, our loyal customers.

Since its inception, all of Eagle's products are USA Made and by the best craftsmen in the industry. Eagle customers are assured they have the highest quality of products, with the most innovative features, at the best value on the market—and all supported by exceptional customer service.

Eagle manufactures the world's largest lines of industrial safety products, including safety cabinets, safety cans, spill containment, poly drums, guards/protectors and traffic safety products. Our newest line of products comprises models of poly drums, flexible containment berms, metal spill pallets, lightweight security bollards, machine guards, poly rack guards, poly spill kits, industrial waste carts and modular poly cabinets.

Eagle's production capacity has evolved over more than a century and has required new manufacturing, storage, and distribution space to accommodate innovation and growth. Since 2013, we've grown our plastics production capacity and distribution center by nearly 100,000 square feet and added a 50,000-square-foot fabrication center with an engineering testing lab.

In 2018, Justrite Safety Group acquired Eagle. Portfolio companies within the Justrite Safety Group offer a wide range of workplace safety products designed with regulatory compliance in mind. Our partnership has allowed for further opportunities to expand Eagle's safety compliance solutions and material handling product lines in markets worldwide. This effort has proven to fuel revenue growth, create additional job opportunities and provide for greater economic impact in our community, state and region—and it's something we're all very proud of.

The entire Justrite Safety Group shares the same dedication to protecting where the world works and ensuring every customer achieves and maintains compliance. Our combined family offers an unrivaled portfolio of essential industrial safety solutions with equipment, systems and technologies ranging from the basic to the highly complex.

On behalf of all of us here at Eagle and Justrite Safety Group, we sincerely thank each of our customers for your loyalty, support and trust as we continue to work together for many years to come in our mission to Protect People, Property and the Planet®.

"Our Goal is to Excel in Manufacturing and Marketing and to be the Supplier of Choice to our Customers."

Mark McElhinny, President, CEO,
Justrite Safety Group

"Product quality is the foundation to achieve our vision of Protecting People, Property and the Planet. Every day we commit to a process to meet our objectives of ensuring best-in-class products and customer experience. Eagle manufactures and designs with compliance in mind. Our products meet or exceed regulatory and third-party standards. Our dedication to quality, continual improvement and a readily available product line, makes us the supplier of choice for our customers."

-Dave Harvey, Vice President of Operations

SAFETY CABINETS

- 4 Standard Cabinet Features
- 6 Flammable Storage Cabinets
- 8 Tower™ Cabinets
- 9 Paint & Ink Tower™ & Paint & Ink Cabinets
- 10 Drum Safety & Haz-Mat Cabinets
- 11 Pesticide Cabinets
- 12 Metal Acid & Corrosive Cabinets
- 13 Poly Acid & Corrosive Cabinets
- 14 Modular *Quik-Assembly*™ Poly Cabinets
- 16 Office Supply Cabinets
- 17 Cabinet Accessories

SAFETY CANS

- 19 Cantastic – Standard Safety Can Features
- 20 Type I Galvanized Safety Cans – Flammables & Diesel
- 21 Type I Galvanized Safety Cans – Kerosene & Combustibles
- 22 Type II Safety Cans – Flammables, Diesel, Kerosene & Combustibles
- 23 Lab & Faucet Cans & DOT Cans
- 24 Disposal Cans – Poly, Galvanized, Stainless & Specialty Use Cans
- 25 Plunger, Bench, Daub Cans
- 26 Poly Waste Cans
- 27 Standard Cigarette Receptacle, Butt Cans & SafeSmoker™

SPILL CONTAINMENT

- 29 Spill Containment Features
- 30 Budget Basin Platforms
- 31 Spill Pallets
- 32 Modular Spill Platforms
- 34 Metal Spill Pallets & Drum Stackers
- 36 Outdoor Drum Storage & Workstations
- 37 IBC Containment Units, Boxes & e-CARTS
- 38 Spill Containment Sumps
- 39 Drum Dollie, Bogie & eCart
- 40 Utility Tray, Single Drum Containment Unit
- 41 Mobile Spill Platform and Drum Accessories

FLEXIBLE SPILL CONTAINMENT

- 42 Spill/NEST™ – Quik-Deploy & Folding
- 44 Spill/NEST™ Berm with Removable Sidewalls
- 46 Talon™ SX & Spill Berm & Spill/NEST™ Drip Pads
- 48 Talon™ Drive-In/Out, Spill/NEST™ Rail Containment & Pools
- 49 Drip/NEST™ Leak Diverter, Hose Wraps & Bibbs
- 50 Storm/NEST™ Basin Inserts, Drain Covers & Berm Accessories

POLY DRUMS

- 52 Poly Drum Features
- 53 10-Gallon (37.9 L) Drums
- 54 14-Gallon (53 L) Drums
- 55 20-Gallon (75.7 L) Drums
- 56 30-Gallon (113.6 L) Drums
- 57 40-Gallon (151.4 L) Drums
- 58 55-Gallon (208.2 L) Drums
- 60 65-Gallon to 95-Gallon (246 L - 359.6 L) Drums

MATERIAL HANDLING

- 62 Guards & Protectors Features
- 64 Bollard Posts, Machine Guards, Wall & Corner Protectors
- 65 Column Protectors & Rack Guard
- 66 Bollards, Bumper Post Sleeves & e-CARTS
- 68 Parking Stops, Poly Guide-Post Delineators™, Bollard Post Sleeves & Combos
- 70 Portable Dockplate & Ramps, Fixed Dockplates, Airplane Service Ramp

NOTICE:

According to California Health and Safety Code section 25249.5 et seq. ("Prop 65") and one of its enabling regulations at 27 CCR § 25600.2(b), California law requires any company to declare if their products contain certain substances, as so listed on <https://oehha.ca.gov/proposition-65/proposition-65-list> for products sold in California.

Please note this catalog now identifies Eagle products requiring this notification as shown in the specification charts with the following symbol: ⚠

Many products have a very small percentage of the overall components that requires a Prop 65 warning, such as self-closing safety cabinets. The small fusible link that holds the doors open contains lead. This is less than 1% of the total cabinet construction.

©EAGLE MANUFACTURING COMPANY, 2019 Eagle Manufacturing Company reserves the right to change construction, specifications, prices and terms without notice, and without obligation as to products already shipped.

SAFETY CABINETS

A leader in the manufacturing of Safety Cabinets for nearly 50 years, Eagle Manufacturing has set the industry standard for high-quality Safety Cabinets for the storage of flammables and other liquids. In 2011, Eagle designed a new state-of-the-art production facility and created a cabinet design incorporating improved convenience and safety features. Our Safety Cabinet product line is designed and manufactured to best meet the ever-changing needs of today's business, industrial and laboratory environments and is made in the USA.

Eagle Steel Safety Cabinet features include:

- Reinforced double wall construction with 1½ in. (3.8 cm.) air space on sides, top, bottom, back and doors
 - Constructed of 18-gauge steel
 - Lead-free, high-gloss, baked-on powder finish
 - Continuous piano hinges
 - Ground connection
 - Four adjustable galvanized leveling legs
 - Trilingual warning labels
 - 2 in. (5.1 cm.) raised leakproof sill
 - Patented, adjustable galvanized steel shelves direct spills to back and bottom of leakproof sump and hold 350 lbs. (158.8 kg.) Uniform Distributed Load (UDL)
 - Internal and external welded construction
 - Two 2 in. (5.1 cm.) internal vents with fire baffle and cap
 - Flush mounted door handle with key lock
 - Three-point stainless steel bullet latching system provides fail-safe, positive door closure with increased heat and corrosion resistance
 - 3 in. (7.6 cm.) centers for shelf brackets
 - Self-latching doors
 - Door closings: Manual Close (180° Opening)
Self-Closing (135° Opening)
 - Self-closing cabinets only:
 - Concealed self-close mechanism provides obstruction-free access to top shelf space
 - Self-indexing doors close in sequence and ensure a tight closure from top to bottom
- (Available in 2- (7.6 L) to 110- (426.4 L) gallon sizes.
Manual Close or Self-Closing.)

ALL CABINETS INCLUDE STANDARD FEATURES & BENEFITS SHOWN ON PAGE 5

Drum safety cabinets include:

- Drum support guides in the bottom and one shelf (vertical cabinets only)
- Roller conveyors in the bottom, one shelf and hazardous waste labels on Haz-Mat safety cabinets

Did you know?

Regulations require not more than 60 gal. (227.2 L) of Class II liquids and not more than 120 gal. (454.2 L) of Class III liquids in any one safety cabinet.

Pesticide safety cabinets:

- Offer safe, secure, lockable storage of pesticides including herbicides, insecticides, fungicides and other poisons
- Provide excellent protection for companies specializing in lawn care, golf course or agricultural management
- Include poly shelf and bottom trays to help contain small spills and provide extra corrosion protection
- Are available in 100 percent polyethylene construction for storage of highly corrosive pesticides or poisons

Quik-Assembly™ in minutes
(No tools required)

MODULAR QUIK-ASSEMBLY™
POLY CABINETS

Eagle introduces a new line of Modular *Quik-Assembly*™ Poly Cabinets ideal for lab or industrial settings. Made of heavy duty High Density Polyethylene, these models can be assembled in minutes without tools. The 4-gallon (15.2 L) model is a stand-alone unit, while the 12-gallon (45.5 L), 24-gallon (90.9 L) and 48-gallon (181.7 L) models can be linked and stacked to create additional vertical or horizontal units. Models can be assembled with the option of the lockable doors opening to the left or right.

Features:

- Ideal for labs and industrial settings
- Assembles in minutes, no tools required
- Lockable doors open to 180°
- Doors can be assembled to open to the left or right
- 100 percent HDPE construction
- Adjustable shelves, 38 lbs. (17.3 kg.) shelf (UDL)
- Sealed internal containment sump
- Two 2 inch (5.1 cm.) poly vents with caps
- “Caution Corrosives” label included
- Modular linkage brackets included
- Additional color options on pg. 14-15

SAFETY CANS

SAFETY CANS

For nearly 60 years, our Safety Can product line has been an industry leader of galvanized Type I and Type II Safety Cans that meet OSHA and NFPA Code 30 requirements, and are UL and ULC listed and FM Approved for safe storage and handling of flammable liquids. Eagle offers FM Approved Compliance Solutions in a variety of poly and stainless cans, lab cans, faucet cans, disposal cans, plunger, bench & daub cans, and poly oily waste cans to help keep your personnel and facilities protected. Made in the USA.

Safety Can options:

- Type I Safety Cans
- Type II Safety Cans
- Type I Poly Cans
- Stainless Cans
- Lab Cans
- Faucet Cans
- DOT Cans
- Disposal Cans
- Specialty Cans
- Plunger Cans
- Bench Cans
- Daub Cans
- Poly Oily Waste Cans
- Biohazardous Cans

Patented comfort grip trigger release plus spring closing lid with nitrile gasket that vents at 5-PSI internal pressure

Double interlock no-weld bottom seam is the only deep drawn seamless can made

SIMPLY CANTASTIC!

Baked-on Powder Coat Finish + 100 Percent Leak Tested!

Featuring Environmentally Friendly Hot Dipped 24-Gauge Galvanized Steel

Patented Comfort Grip Trigger Release

Spring Closing Lid With Nitrile Gasket That Vents at 5-PSI Internal Pressure

Fixed Handle

Non-Sparking Flame Arrestor and Pour Spout

Baked-on Powder Coat Finish

Available in 1- (3.8 L), 2- (7.6 L), 2.5- (9.5 L) & 5-Gallon (18.9 L) Sizes

Meet OSHA & NFPA Code 30 Requirements

FM, UL & ULC Approved

Accepted Under CARB

Double Interlock No-Weld Bottom Seam

Optional F15 HDPE Funnel Fits Unleaded Fuel Tanks

The Only Deep Drawn Seamless Can Made

Deep Drawn Construction Means No Top or Side Seam

Laboratory Safety Cans:

- Laboratory Safety Cans reduce the danger of explosions resulting from the ignition of vapors of flammable liquids
- Cans are available in coated metal, stainless steel and high-density polyethylene for safe storage and handling of most chemical compounds

Compliance: OSHA 29 CFR 1910.106, 1925.152 & NFPA Code 30

DOT Transport Type II Safety Cans:

- Reduce the danger of explosion while dispensing flammable liquids through a flexible metal spout
- Have double-walled flame arrestors in filler opening and pour spout
- Heavy duty roll bars protect both spouts, and a thumb screw mechanism assures the filler opening stays closed while being transported

Meet DOT requirements
Compliance: OSHA 29 CFR 1910.106, 1925.152 & NFPA Code 30 - UN/DOT-1A1/Y1.2/100/08/USA/M4990/0.6mm

Metal & Polyethelene Disposal Safety Cans:

- Disposal Safety Cans provide an intermediate station for temporary storage of liquid wastes
- Spout cap opens to a wide 80° angle and can be locked open for conveniently emptying various types of containers
- Cans are equipped with a flame arrestor
- Cap assembly opens automatically to relieve excessive internal vapor pressures
- FM Approved

Plunger & Bench Safety Cans:

- Eagle Safety Plunger Cans are ideal for cleaning with flammable or volatile fluids
- Feature flame arrestor dasher screens, brass pump assemblies, and comply with OSHA standards
- When the dasher plate is pushed down, the safety can dispenses a small amount of liquid to easily moisten sponges or rags without messy or dangerous spills
- Polyethylene and coated metal models available
- FM Approved
- Eagle Safety Bench Cans are designed for safer cleaning of small parts or swabbing of larger ones
- Dasher screens act as a fire baffle

Polyethylene Oily Waste Cans:

- Fire-safe temporary storage of solvent rags, waste rags, shavings and other materials

Compliance: OSHA 29 CFR 1910.125(e)(4)(ii) and OSHA 29 CFR 1910.125(e)(4)(iii)

Polyethylene Biohazardous Waste Cans:

- Advise workers of potential biohazards and meet OSHA requirements for exposures to blood borne pathogens

Compliance: OSHA 29 CFR 1910.1030

Can be used with or without a liner

Fire-safe temporary storage of solvent rags, waste rags, shavings and other materials subject to spontaneous combustion

Polyethylene construction won't rust or dent and is resistant to most chemical compounds – heavy-wall HDPE construction

Meets OSHA and NFPA Code 30 requirements and are accepted for temporary storage of oily waste materials

Flared base for added stability

Self-closing lid

Molded handles for easy handling

No seam, leakproof construction

Exceeds FM standards for impact, stability & fire testing

Exceeds performance standards at temperatures between -40° F (4.4° C) & 140° F (54.4° C)

Hands-free foot lever

SAFESMOKER™ & Butt Cans

SAFESMOKER™ Cigarette Receptacle is made of high-density polyethylene with UV inhibitors, with a galvanized steel collection bucket inside. Design restricts oxygen to quickly extinguish burning butts. Top of container removes easily to access and empty internal bucket. Rain-protective design keeps water out and eliminates odor. Includes integrated hold-down tabs for security and wind protection.

Eagle Butt Cans are ideal for “designated smoking areas” inside or outside. Features poly tube and galvanized can base. Yellow for in-plant use and beige for office or commercial areas.

Original Butt Cans This all-metal galvanized steel can is excellent for smoking areas in industrial settings. 5-gallon (18.9 L) capacity in yellow or beige.

SPILL CONTAINMENT

Since the 1980s, Eagle Manufacturing has had the most flexible and comprehensive spill containment and storage product line available. As the market leader, we have trusted Compliance Solutions to help keep your personnel and facilities protected. All of our products are 100 percent made in the USA, and are constructed of high-density polyethylene (HDPE) for excellent chemical resistance and maximum performance to meet EPA and SPCC compliance. This product line includes Budget Basins, Modular Platforms, Pallets, Sumps, IBC Containment Units, Outdoor Storage, Workstations and Spill Containment Boxes.

Eagle offers 3 Spill Containment options: Rigid, Flexible and Steel

Modular Platform
easy to connect
with a built-in
U-channel

Poly Pallet
Ramp for easier
loading and
unloading

All Eagle Basins, Pallets and Platforms feature high-performance engineered plastic construction for excellent chemical resistance and impact durability for long life. Pallets and Platforms are also UV Protected.

Removable grating for easy cleaning

Forklift pockets

Removable flat top grating

Modular platforms easy to connect with built-in U-channel

Most models available with and without drain

ADD LOW COST SPILL PROTECTION TO YOUR WORKPLACE

Designed for Eagle spill containment platforms and pallets that have built-in drain plugs. The 16DRAIN connects into the 3/4 in. (1.905 cm.) port in the side of the tub to allow liquid in the tub to drain through the assembly. The assembly includes a replaceable absorbent sock (Model 16FILTER) to collect oil allowing only water to discharge at the other end of the drain assembly for proper disposal. The assembly also has a plastic mesh screen inside to collect debris. When the absorbent sock in the assembly is fully saturated the liquid flow stops. The threaded drain assembly allows for easy removal and replacement of the absorbent sock. (Replacement sock kit sold separately Model 16FILTER).

Model 16DRAIN
Containment Drain

Eagle Tarps are designed to fit Eagle’s Spill Containment Products. Tarps help prevent contamination of drums and sump area, permit easy visual inspection, and keep rainwater and debris out when stored outdoors.

- Elasticized bottom with adjustable straps
- Attached document pouch for holding chemical information, MSDS sheets and other documents

TYPICAL CONFIGURATIONS

Modular design allows for multiple configurations. Easy to connect with built-in U-channel. Low profile for easy loading and unloading.

100% Recyclable

Convenient Storage Center

All Eagle Pallets & Platforms feature:
High-performance engineered plastic construction for excellent chemical resistance and impact durability for long life.

EPA 40 CFR 264.175: Container storage areas must have a containment system that has sufficient capacity to contain 10 percent of the volume of containers or the volume of the largest container, whichever is greater.

This marker indicates compliance with EPA spill prevention, control and countermeasures regulations.

Did you know?
According to SPCC regulations, containment systems are required by any industry that deals with the storing and transportation of hazardous materials.

Horizontal Drum Stacking System Drum Containment

Used in combination with our spill containment platforms, this product meets EPA Secondary Containment Storage requirements (40 CFR 264.175).

All components are 100 percent polyethylene, designed to lock into spill pallet grating for stable drum storage and are ideal for chemical storage and dispensing. Shelf attaches easily, allows for filling multiple containers at once and can be moved via forklift.

Soft Top Containment
The NEW Eagle Soft Top Containment Unit (Model 1645STC) provides protection from the elements for up to four 55-gallon (208.2 L) drums with a durable soft top cover built on a 4-drum HDPE containment pallet. Ships unassembled for reduced shipping costs. Easy step-by-step assembly for a secure and quick weather resistant containment solution. The height of the cover allows storage with drum pumps in place.

The four drum pallet is 100% HDPE construction that resists corrosion and weathering. The flexible soft top is constructed of high-vis yellow PVC fabric over a rugged galvanized steel frame. Access drums through the front or back. For maximum loading and unloading ease use with the Eagle HDPE Poly Ramp (Model 1689 – Sold Separately.)

4 Drum Poly Storage Building
Securely stores up to four 55-gallon (208.2 L) drums. Features four-way forklift pockets, vented door louvers, removable grating and top hooks for moving. **[Note:]** Top hooks are intended only for moving empty building. Door opening accepts up to a 48 in. x 48 in. (122 cm. x 122 cm.) pallet. (Use a cable to lock.)

2 Drum Workstations
A secure way to store drums inside or outside. Available in low (1626) or high (1628) profile for the storage of two drums. Units can be moved via forklift and have optional dolly allowing for easier movement on worksite. Includes locks for secure storage.

Model 1629
Workstation Dolly 1,500 lbs.
(680.4 L) capacity (UDL)

Drum Containment Dollie

The Eagle Drum Containment Dollie is constructed of Yellow HDPE with double black straps for easy loading, and its lightweight design with rounded handles for easy tipping. The Dollie transports 55-gallon (208.2 L) drums with ease, and tilts to become a self-dispensing unit. It also acts as its own secondary containment unit.

Features

- Tough yellow polyethylene construction with a lightweight design
- Extra large, easy roll 10 in. (25.4 cm.) poly wheels
- Drain Plug that simplifies removal of contents from sump
- Holds up to 600 lbs. (272.2 kg.) (UDL)
- Double buckle and strap
- Forkliftable from the rear
- Molded handles
- Rounded handle makes lifting easy

Model 1617Y Drum Containment Dollie

Model T8609 Fitted and durable poly cover available to protect from the elements

Drum Bogie

Mobile dispensing unit protects against incidental spills and leaks for 30- (113.6 L), 55- (208.2 L) and 95-gallon (359.7 L) drums. The durable polyethylene Bogie resists corrosion; has five swivel casters for maximum stability, load capacity and maneuverability; and features a poly push-pull handle. Ships via UPS.

Eagle e-CART Wheeled Spill Kit Cart Features:

- Constructed of durable HDPE
- Ergonomically designed handles
- Double-walled hinged lid with a hold-down tab
- Rugged galvanized steel bar handles
- HDPE wheels on a heavy duty steel axle
- Wear tabs on the bottom
- Ergonomically designed

Containment Utility Tray

This HDPE tray is an affordable way to contain small spills up to five gallons. For countertop use for the working storage of lab chemicals, as a drip pan under dispensers, or as a floor tray under machinery. These trays are stackable for easy storage and feature a ribbed bottom.

Mobile Spill Platform and Drum Accessories

Mobile Spill Control Platform

The safety of a spill containment platform with the convenience of mobility; safely transfer containers between workstations.

Drum Funnel and Cover

The 18 in. (45.8 cm.) wide drum funnel fits both 30- (113.5 L) and 55-gallon (208.2 L) drums. The 6 in. (15.3 cm.) high side walls reduce splashing and spout fits any 2 in. (5.1 cm.) NPT bung. The optional funnel cover keeps out dirt and contaminants.

Compliance: EPA 40 CFR 265.173.

Drum Covers

HDPE construction, covers for closed (1666) or open (1667) head drums.

Drum Tray and Drip Pan

Eagle Poly Drum Tray is ideal under drums where dispensing or filling takes place. The drip pan catches up to one gallon of oils, coolants, water or other non-aggressive liquids. Constructed of high density polyethylene (HDPE). Model 1614 without black HDPE grating, Model 1615 with black HDPE grating. For use with Eagle Model 1618 – Drum Tray Dolly with four 3 inch casters.

Eagle Quik-Deploy™ SpillNEST™

The Eagle Quik-Deploy™ SpillNEST™ is a compact and affordable solution for fast response to leaks and drips. This product features a 4 in. low profile sidewall and is available in six sizes, which are leak tested before shipment. Made in the USA.

Perfect for:

- Changing oils and fluids
- Quick use under leaking vehicles
- Protecting bottom surfaces while dispensing
- Performing maintenance on an item with spill potential
- Constructed of PVC Coated Fabric
- Made in the USA

Eagle Quik-Deploy™ Folding SpillNEST™

The Eagle Quik-Deploy™ Folding SpillNEST™ has the same durable, high-quality construction as the Quik-Deploy™ SpillNEST™.

Features:

- A thinner 2 in. (5.1 cm.) sidewall width
- A safety-secure strap for easy folding and storage
- An extended 6 in. (15.3 cm.) sidewall height that allows for up to 30 percent more spill capacity
- Conveniently folds saving shipping and storage space
- Constructed of PVC Coated Fabric
- Made in the USA

Eagle SpillNEST™

Available with or without grating

The Eagle SpillNEST™ line delivers easy-to-use, affordable, temporary spill containment for drums, machine parts, small equipment and other jobsite needs. This new product is available with or without the classic black HDPE grating used in Eagle's market-leading HDPE Spill Containment Pallets. Available in six sizes.

Features:

- Foam sidewalls that easily spring back into place after pressure is applied
- Folds for easy storage
- Affordable and reusable
- No need for ramps, drive in and drive out with hand trucks
- Constructed of PVC Coated Fabric
- Made in the USA

Eagle SpillNEST™ Berm with Removable Sidewalls

The Eagle SpillNEST™ Berm with Removable Sidewalls assists with safety and compliance on the job site. Available in Economy, Standard and Heavy Duty designs. The sturdy design incorporates high strength connectors and a two-way air relief system to facilitate automatic entry and exit at any angle.

Conveniently folds, stacks and stores on a shelf or in a container for immediate use, setup and reuse. To maintain quality and life of your SpillNEST™ Berm, Eagle offers accessories including Ground Pads, Track Mats and Storage Bags.

- For oil and gas sites and other large area applications
- Easy to assemble
- Folds, stacks and stores conveniently
- Ready for immediate setup and use
- Durable and reusable
- 13 sizes available
- Made in the USA
- Available in Economy, Standard and Heavy Duty material variations
- Entry and exit from any point without harming foam logs

Removable Foam Logs

Eagle Talon™ Spill Berm

The Eagle Talon™ Spill Berm is a lightweight, portable berm constructed of yellow vinyl-coated polyester. Available in seven sizes.

- Snap-up supports
- Folds for compact storage and transport
- Unique and sturdy supports
- Excellent for decontamination applications
- Great addition to a Spill Kit
- Chemical resistant
- Made in the USA
- Constructed of PVC Coated Fabric

Model T8401

Eagle Spill/NEST™ Drip Pads

Eagle Spill/NEST™ Drip Pads are used for leaks. Designed to be used as a durable, portable drip pad. Made in the USA.

- Each unit folds easily
- Refill pads are available in packs of 5

Eagle Talon™ Drive-In & Drive-Out

The Eagle Talon™ Drive-In and Drive-Out Spill Berm allows the user to drive in and out without having to lower the end walls. Fuel and chemical resistant.

- Ideal for fuel use
- Constructed of XR5 Fabric
- Easy to assemble
- Lap joint welds for maximum strength
- Design permits quick deployment
- Additional sizes available
- Made in the USA

Model T8430DR
Shown with Ground Pad,
Track Mat and Tie Down Straps

Ground Pads and Track Mats are available for additional protection. See page 51.

T8311	DripNEST™ Leak Diverter 18 ft. x 18 ft./549 cm. x 549 cm.	Yellow	14 lbs./6.4 kg.
T8312	DripNEST™ Leak Diverter 24 ft. x 24 ft./732 cm. x 732 cm.	Yellow	15 lbs./6.8 kg.

Model T8301

Eagle Storm^{NEST}[™] Storm Water Control Basin Inserts

The Eagle Storm^{NEST}[™] Storm Water Control adjustable catch basin inserts to help with NPDES, 40 CFR 122.26 compliance of Stormwater Pollution Prevention Plans when used as Best Management Practices. Designed to protect storm drains and sewers from debris and sediments. Available with or without oil-absorbent bag. Made in the USA.

- Available in rectangular or round designs
- Rectangular models designed to fit catch basins from 16 in. x 20 in. to 42 in. x 42 in.
- Round model designs fit catch basins from 27 in. to 29 in. in diameter
- All models available with or without oil-absorbent feature
- Requires no special tools to install and remove
- Overflow rate of up to 500 gpm helps avoid ponding

Model No.	Description	Weight		Compliance
T8701	500 gpm Basin Insert-Sediment, Round Adjustable 24 in. - 26 in./61 cm. - 66 cm. - Black	2 lbs./9 kg.

Ground Pad

When used under the Eagle Talon[™] Series Berms, the ground pad helps protect berms from truck wheels and rough terrain. Place directly on the ground under the Eagle Talon[™] Berm to guard against underside punctures.

POLY DRUMS

For nearly 30 years, Eagle Manufacturing's ever-growing Poly Drum product line has handled both hazardous and non-hazardous storage needs for customers by offering Lab Packs, Overpacks, Open-Head and Salvage Drums. The 14- (53 L), 20- (75.7 L), 30- (113.6 L) and 55-gallon (208.2 L) Lab Packs and Open-Head Drums are available with plastic lids and a choice of metal or plastic lever locking rings. The 14- (53 L), 20- (75.7 L), 30- (113.6 L), 55- (208.2 L), 65- (246.1 L) and 95-gallon (359.6 L) Overpack and Salvage Drums are available with metal bands or screw-on lids. All models are constructed of chemical resistant, high-density polyethylene (HDPE) with UV inhibitors, are durable and lightweight and available in yellow, blue and black. All of our products are 100 percent made in the USA.

All drums feature:

- Blow-molded HDPE construction
- Chemical & weather resistant
- HDPE incinerates completely
- United Nations (UN) Certified to HM-181
- Operating temperature range (-40° F/-34° C to 140° F/54° C)
- Drop tested – max weight at 0° F/-17° C (48 hrs.)
- Approved for use with Packing Groups I, II and III
- UV Protection Package
- UL 94HB Flammability Rating
- Nestable for ideal storage (except model 1656)
- FDA 21 CFR 177.1520 Food Grade Quality
- Stack tested – three high at maximum weight capacity (24 hrs.)

Eagle drums are ideal for:

- Safe storage, handling and transportation of hazardous materials
- Spill containment and cleanup of hazardous materials
- Spill kit containers
- Original shipping containers
- Biowaste disposal and incineration

Eagle 10-Gallon Poly Drum

Eagle's NEW 10 Gallon Lab Pack / Open Head Drum is blow molded with durable high-density polyethylene (HDPE) for maximum performance and quality. The HDPE is chemical and weather resistant and includes a UV protection package. Available in Yellow, Blue, Black or Natural HDPE, with plastic or metal lever lock, or metal bolt ring. 100 percent made in the USA.

Features:

- Constructed of durable HDPE
- Nestable storage to optimize shipping and storage space
- Plastic or Metal Lever Locking Bands, or Bolt Ring
- FDA 21 CFR 177.1520 Food Grade Quality
- Operating Temp range (-30° F to 130° F)
- Drop tested-max weight @ 0° F (48hrs)
- UL 94HB Flammability Rating

Lab Packs/Open Head – for use with smaller non-damaged bottles, cans, carboys and 5-gallon (18.9 L) pails of non-leaking hazardous materials – if leaking, must pack with sufficient sorbents – NO FREE LIQUIDS.

Regulatory Compliance:
Lab Packs/Open Head: DOT 49 CFR 173.12 / Overpacks: DOT 49 CFR 173.25
Salvage Drums: DOT 49 CFR 173.3

Salvage Drums – for use with damaged or leaking containers of hazardous materials or used absorbent materials contaminated with a hazardous substance. Require “Salvage Drum” labeling and must pass a 3-PSI pressure test.

Overpacks – for use with larger non-damaged containers, cans and drums of non-leaking hazardous materials – if leaking, must pack with sufficient sorbents – NO FREE LIQUIDS.

UN Markings: UN 1H2/X340/S/96USA/M4990
1- Type of Container (drum), H-material of construction (plastic), 2- Removable head/X-Testing performance (X=Groups I, II, & III), 340-Max. Wt. of Container (Kg)S-solids/96/Year of Manufacture, USA-State Authorization Mark/M - certification compliance, 4990 -Testing Agency number.

Benefits of Blow-Molded HDPE Drums

HDPE is a very high molecular weight material, designed for an optimum balance of density, molecular weight and molecular weight distribution, demonstrating maximum property advantages for large products that require high impact resistance. Some of these advantages include:

- Environmental stress crack resistance (ESCR)
- Impact strength – even at a low temperature

- Flexural modulus – durability and resilience
- Chemical resistance – to wide range of chemicals
- Abrasion resistance – prevents gouging and scuffing
- Ultraviolet (UV) protection – superior blending process
- Plain Lid with gasket to seal lid to drum with drum lever ring (lever rings come in powder-coated metal or HDPE plastic)
- Lid with two 2 in. (5.08 cm.) bung lids for drum pump straight thread connections
- Lid with one 2 in. (5.08 cm.) and one 3/4 in. (1.9 cm.) bung lids for drum pump straight thread connections

Lid Styles:

- Lids feature closed cell foam or silicone gaskets
- Lid closure instructions included in each drum
- Salvage Drums pass 3-PSI pressure test

Did you know?

Eagle HDPE poly drums with screw tops or plastic lever-lock lid closures can be incinerated completely.

Lab Packs/Open Head – for use with smaller non-damaged bottles, cans, carboys and 5-gallon (18.9 L) pails of non-leaking hazardous materials – if leaking, must pack with sufficient sorbents – NO FREE LIQUIDS.

Salvage Drums – for use with damaged or leaking containers of hazardous materials or used absorbent materials contaminated with a hazardous substance. Require “Salvage Drum” labeling and must pass a 3-PSI pressure test.

Overpacks – for use with larger non-damaged containers, cans and drums of non-leaking hazardous materials – if leaking, must pack with sufficient sorbents for – NO FREE LIQUIDS.

Regulatory Compliance:
Lab Packs/Open Head: DOT 49 CFR 173.12
Overpacks: DOT 49 CFR 173.25
Salvage Drums: DOT 49 CFR 173.3

MATERIAL HANDLING

Eagle Manufacturing has offered affordable protection for warehouses, plants, factories, stores and other facilities for more than 20 years. From column protection to maintenance-free post-sleeves to ramps and dockplates, Eagle has the Compliance Solutions to help keep your facility protected. Our Material Handling products are designed to meet your specific needs, and are 100 percent made in the USA.

Multiple products for Material Handling and Facility Protection:

- HDPE Bollard Post Sleeves
- Bollard Posts & Machine Guards
- Wall & Corner Protectors
- Protective Parking Stops
- Poly Guide-Post Delineators
- Safety Clearance Bars
- Decorative Post Sleeves
- Portable & Fixed Dockplates
- Column Protectors
- Lightweight Poly Curb Ramp
- Lightweight Shipping Container Ramp

GUARDS & PROTECTORS

Bollard Posts and Machine Guards

Bollard Posts add protection to your facility and prevent damage. Posts feature a durable baked-on powder coat in safety yellow to provide high visibility. Each post is made of 1/4 in. (.63 cm.) thick (Schedule 40 or Schedule 10) steel mounted on 3/8 in. (.95 cm.) steel plates, pre-drilled holes (3/4 in./1.9 cm.) for easy installation. The black HDPE post caps are included and can be removed to fill posts with concrete for extra protection.

Machine Guards

Machine guards provide superior protection for facilities and equipment by creating barriers between traffic areas and your valuable machinery. Each guard is made of 1/8 in. (.32 cm.) thick Schedule 10 steel mounted on 3/8 in. (.95 cm.) steel plates, pre-drilled holes for easy installation.

Wall Protectors and Corner Protectors

Wall Protectors

Our wall protectors help prevent damage to walls in areas with forklift, hand truck or drum traffic. These guards are made of high-visibility yellow, high-density polyethylene; never need painting; and resist cracking and chipping. Can be mounted end to end, and feature unique energy absorbing construction. (Set of two) (Anchors not included)

Corner Protectors

HDPE Corner Protectors deflect the impact, helping to protect plant areas prone to damage by fork truck, hand truck or personnel traffic. Provide easy installation with bolts or optional straps (not provided). Two sizes to meet most needs sold in sets of two, inside measurement 4 in. (10.2 cm.) x 8 in. (20.3 cm.) and outside measurement 6 in. (15.2 cm.) x 10 in. (25.4 cm.).

Model 1726 6 in. (15 cm.) Wall Protector 6 in. x 42 in. x 2 in. (15 cm. x 106.7 cm. x 5.1 cm.) (each) (Sold as set of two) (Anchors not included)

Model 1725 42 in. (106.7 cm.) Corner Protector 42 in. x 6 in. x 10 in. (106.7 cm. x 15.2 cm. x 25.4 cm.) (each) (Sold as set of two) IM 4 in. (10.2 cm.) x 8 in. (20.3 cm.) OM 6 in. (15.2 cm.) x 10 in. (25.4 cm.)

100% Recyclable

Wall Protectors			
Model	Item	Dimensions (w x l x d)	Weight per set

1725	42" Corner Protector (set of two)	in: 42 x 6 x 10 cm: 106.7 x 15.2 x 25.4 each	20 lbs./9.1 kg.

Column Protectors

Affordable protection for warehouse and factory columns, posts and beams. Absorbs impact from tow motors, minimizing column, fork truck, and personnel damage and injury. These blow-molded 100 percent high-density polyethylene protectors are resistant to most chemicals and feature key-lock to prevent slippage and assist with installation alignment. Available to fit 4 in. (10.2 cm.), 6 in. (15.2 cm.), 8 in. (20.3 cm.), 10 in. (25.4 cm.) and 12 in. (30.5 cm.) round or square supports. No tools required. Two halves attach with easy-to-install straps. Protectors come in yellow with black straps, and orange or lime green with high-visibility reflective straps. (Tested with fork truck: 8,500 lbs. (3855.5 kg.) at 5 mph (8 kph). Replace if damaged.)

100% Recyclable

The 1709 model was designed to fit 9 in. (22.9 cm.) round columns and is available in yellow with black straps, and orange or lime green with high-visibility reflective straps.

Mini Column Protectors

Eagle's 'Mini' Column Protectors (Model 1724) are perfect for affordable warehouse and factory protection under fire extinguishers, and absorb impact from tow motors, minimizing column and fork truck damage. These blow-molded, 100 percent high-density polyethylene protectors feature key-locks to prevent slippage and assist installation alignment. Two halves attach with easy-to-use straps with no tools required.

These models are designed to fit 6 in. (15.2 cm.), 8 in. (20.3 cm.), 10 in. (25.4 cm.) and 12 in. (30.5 cm.) round or square supports and are available in yellow or red. (Replace if damaged)

Rack Guard

The NEW Eagle Rack Guard is designed to help prevent rack and shelving damage from forklifts and pallet trucks. With a quick and easy snap on design, these models require no tools to install and can be stacked for a desired height to comply with the international standard of 16" (40.6 cm.). The rack guard's narrow profile minimizes interference with valuable storage space.

Eagle offers the widest selection of HDPE Bollard Post Sleeves available

Eagle's HDPE Bollard Post Sleeves make old bollards look like new. High Density Polyethylene (HDPE) construction with UV inhibitors resist fading, rusting and cracking. The post sleeves are designed to easily fit over 4 in. (10.2 cm.), 6 in. (15.2 cm.) and 8 in. (20.3 cm.) NPT pipe and eliminate the need for annual maintenance, while helping to protect vehicles and the post from impact damage. The unique design allows for easy slide-on installation.

Benefits of all Eagle HDPE Post Sleeves:

- Improves property appearance at minimal cost
- Saves on annual painting and scraping of old bollards
- Slides over existing posts for easy installation
- High-quality, all-weather HDPE – will not rust or dent
- Fade resistant with UV inhibitors
- Colors to match many exteriors
- Sleeve height may be easily trimmed for an exact fit
- HDPE thickness

Original HDPE Bumper Post Sleeves

The Original HDPE Bumper Post Sleeves have a vertical fluted design to provide extra protection and easier installation. They come 56 in. (142.24 cm.) in length (to fit 4 in./10.2 cm., 6 in./15.2 cm. and 8 in./20.3 cm. pipe) and are available in yellow, red, blue, white, green, orange, lime, brown and black. The 72 in. (182.9 cm.) length Bumper Post Sleeves (to fit 6 in./15.2 cm. and 8 in./20.3 cm. pipe) are available in yellow only. Sleeve height may be easily trimmed for an exact fit.

TRAFFIC SAFETY PRODUCTS

Protective Parking Stops & Speed Bump-Cable Protectors

Eagle Parking Stops, designed with safety and durability in mind, eliminate the need for seasonal painting. Flexible enough to fit parking lot contours – the rugged HDPE Stops are weather and chemical resistant. Eagle offers four colors – the high-visibility yellow, blue for handicapped areas, gray and black. Anchor kit with three spikes and tube of asphalt adhesive included.

Eagle Speed Bump-Cable Protectors add safety to your facility. The high-visibility yellow bumps are engineered at the perfect angle. They also act as a dual channel cable protector, feature a non-skid surface, and are weather and chemical resistant. HDPE construction means you eliminate the need to continually paint bumps. The 6 ft. (22.7 cm.) anchor kit includes six spikes and a tube of asphalt adhesive. The 9 ft. (34.1 cm.) anchor kit includes eight spikes and a tube of asphalt adhesive.

Poly Guide-Post Delineators™ & Poly Bollard Posts

Poly Guide-Post Delineators™

Lightweight, portable, yieldable HDPE posts used to warn, guide and delineate. Feature 3 in. (11.4 cm.) – wide reflective bands for increased visibility and are MUTCD compliant. Posts are mounted on a 10 in. (37.9 cm.) sq. poly plate with anchor slots (3/4 in./2.8 cm.) for permanent use or used with steel base for portable stability.

Poly Bollard Posts

Create a low-cost, maintenance-free caution zone. These 42 in. (159 cm.) – high poly bollards are available in a 5 in. (18.9 cm.) or 7 in. (26.5 cm.) model with a poly base with anchor slots (3/4 in./2.8 cm.) that can be anchored for maximum stability or used with optional weighted steel base.

Safety Clearance Bars

Eagle introduces two safety clearance bars for use in drive-thrus, parking garages and much more. Clearance Bars provide an early warning for motorists, reducing structural and vehicle damage. This is even more necessary as SUVs and pickups have grown in size. The Clearance Bars are constructed of high-visibility yellow polyethylene and are available in 76 in. (193 cm.) and 77 in. (195.6 cm.) lengths in either 5 in. (12.7 cm.) or 7 in. (17.8 cm.) outside diameter. Both come with eyebolts for easy installation (chain not included).

- For use with hand trucks or wheeled carts
- Provides an ergonomically correct method to move heavy loads over curbs or up steps
- Raised surface for excellent traction in all weather conditions
- 1in. (2.5 cm.) side rails
- Constructed of yellow HDPE
- Lightweight (9 lbs./4.1 kg.) with two handles with rounded edges for easy pickup, carrying and handling
- Ramp also used with Eagle Safety Cabinets as cabinet ramp

For Models 1795 & 1797

- For use with two- and four-wheeled dollies, hand trucks and carts
- Lightweight, ergonomic design is easy to use
- Raised surface for excellent traction in all weather conditions
- Beveled entry and exit edges
- Aluminum legs for durability and strength
- Constructed of yellow HDPE
- Two integrated handles for easy handling
- Available in 35 in. (89 cm.) and 48 in. (122 cm.) widths

Compliance: Meets OSHA 1910.30(a)

- Lift-n-lower ergonomic design helps reduce injuries
- Features molded-in, raised surface and integrated side rails
- Coated steel installation kit installs easily on metal or concrete dock facings
- 6 in. (15.3 cm.) slide bar for easy truck centering or out-of-the-way storage

1796KIT Fixed Poly Dockplate Installation Kit (Sold separately)

- For use with hand trucks and dollies for loading and unloading
- Features a hook rail that attaches to the doorkeepers for secure, three-point contact and support across the width of the ramp, as well as a tab that inserts into the keepers to help prevent lateral movement of the ramp during use

Eagle Airplane Service Ramp

Eagle's new Airplane Service Ramp is constructed of durable, lightweight, high-density polyethylene (HDPE) for use in transferring service carts from the service vehicle into the aircraft. This ramp features a lightweight (28 lbs./12.7 kg.) ergonomic design with a raised textured surface, beveled entry and exit edges, high-visibility yellow HDPE, full-length guardrails with integrated handles for easy handling and a 1,000-lb. (453.6 kg.) load capacity (UDL). 100 percent made in the USA.
