

ERGOSERV® COMMERCIAL

CREAMER

The ErgoServ® Commercial Creamer is a classic choice for serving dairy or coffee. Designed with an NSF-listed lid and body, it easily disassembles for thorough cleaning, making it ideal for dairy service. Optional content indicator socks are available in Cream, Milk, Skim, and Soy for added convenience. Superior FerroStat insulation keeps beverages at the perfect temperature for 4–6 hours, while the ergonomic handle and no-drip spout ensure a smooth, controlled pour.

Replacement parts: trigger lid, silicone sleeves.
