Utilizing what already exists.

Fineline Settings believes in making everything better. And we take that mantra seriously in every aspect of our business from the products we manufacture to the customer service we are proud to offer our valued clients. ReForm™ packaging items are made utilizing a proprietary blend of recycled polypropylene and constructed to preform through a variety of hot and cold applications.

We believe the high percentages of recycled content contained in ReForm™ packaging items will have a positive “reforming” effect across many industries. The durability of ReForm™ allows your customers to reuse and repurpose the items reducing the amount of waste generated and increasing the length of time they remember the deliciousness that the ReForms once contained.

As you explore and use the many options available we are confident you will experience the quality and functionality you have come to expect from Fineline Settings.
