**"FLEX SEAL'S WATERTIGHT BARRIER
TAKES A BEATING AND STAYS
STRONG AND FLEXIBLE."**

EXCELLENT FOR:
Concrete & asphalt repairs, foundation repairs, preventing basement seepage, home & roof repairs, RV & motorhome repairs, pools & pool equipment repairs, & more.

- Starts out as a thick liquid, seeps into cracks and holes, and dries into a watertight, flexible, rubberized coating.
- Easy to use. Just brush, roll, dip or pour to stop leaks fast.
- Seals out air, water and moisture.
- UV and chemical resistant.
- Resists rain, snow, sun and hail.
- Helps prevent rust and corrosion.
- Expands, contracts, flexes and stretches, resisting extreme weather changes.
