

bed protection

It's no surprise that quality of sleep* is rated one of the most important components of a hotel guest experience. Guests are looking for a clean, safe, and comfortable sleep environment. Adding bed protection will help your guests sleep better and make it easier for housekeeping to maintain a clean room.

**J.D. Power 2019 North America Hotel Guest Satisfaction Index Study*

Why should I protect my bed?

Offer your guests the stay they deserve: a healthy sleep environment, free from liquid damage and protected from pests, dust mites, and other allergens.

PROTECT-A-BED®

Focus Hospitality is pleased to announce our acquisition of Protect-A-Bed®, the industry leader in mattress protection. Protect-A-Bed encasements and protectors shield your mattress from stains, spills, pests, and allergens. Our products extend the life of your assets, while improving comfort and hygiene for your guests.

maximum protection

For maximum protection start at the bottom. Box springs are the ideal breeding ground for bed bugs.

- 1** Encase Your Box Spring
- 2** Encase Your Mattress
- 3** Add a Fitted Protector
- 4** Protect Your Pillows

features & benefits

LAB-CERTIFIED BED BUG PROTECTION

Protect-A-Bed®'s patented BugLock and Secure Seal combine together to ensure the mattress stays both bed bug entry and escape proof. Our encasements have been independently tested to ensure their effectiveness, and Protect-A-Bed® is the only brand of encasement to earn the Good Housekeeping Seal of Approval.

SNUG FIT EVERYTIME

Our encasements provide a snug fit for your mattress. The better the fit, the better sleep experience provided to your guest. Our snug fit also offers early detection of bed bug infestations. Other products leave excess fabric which create a breeding ground for bed bugs and is uncomfortable to the guest.

WATERPROOF MIRACLE MEMBRANE®

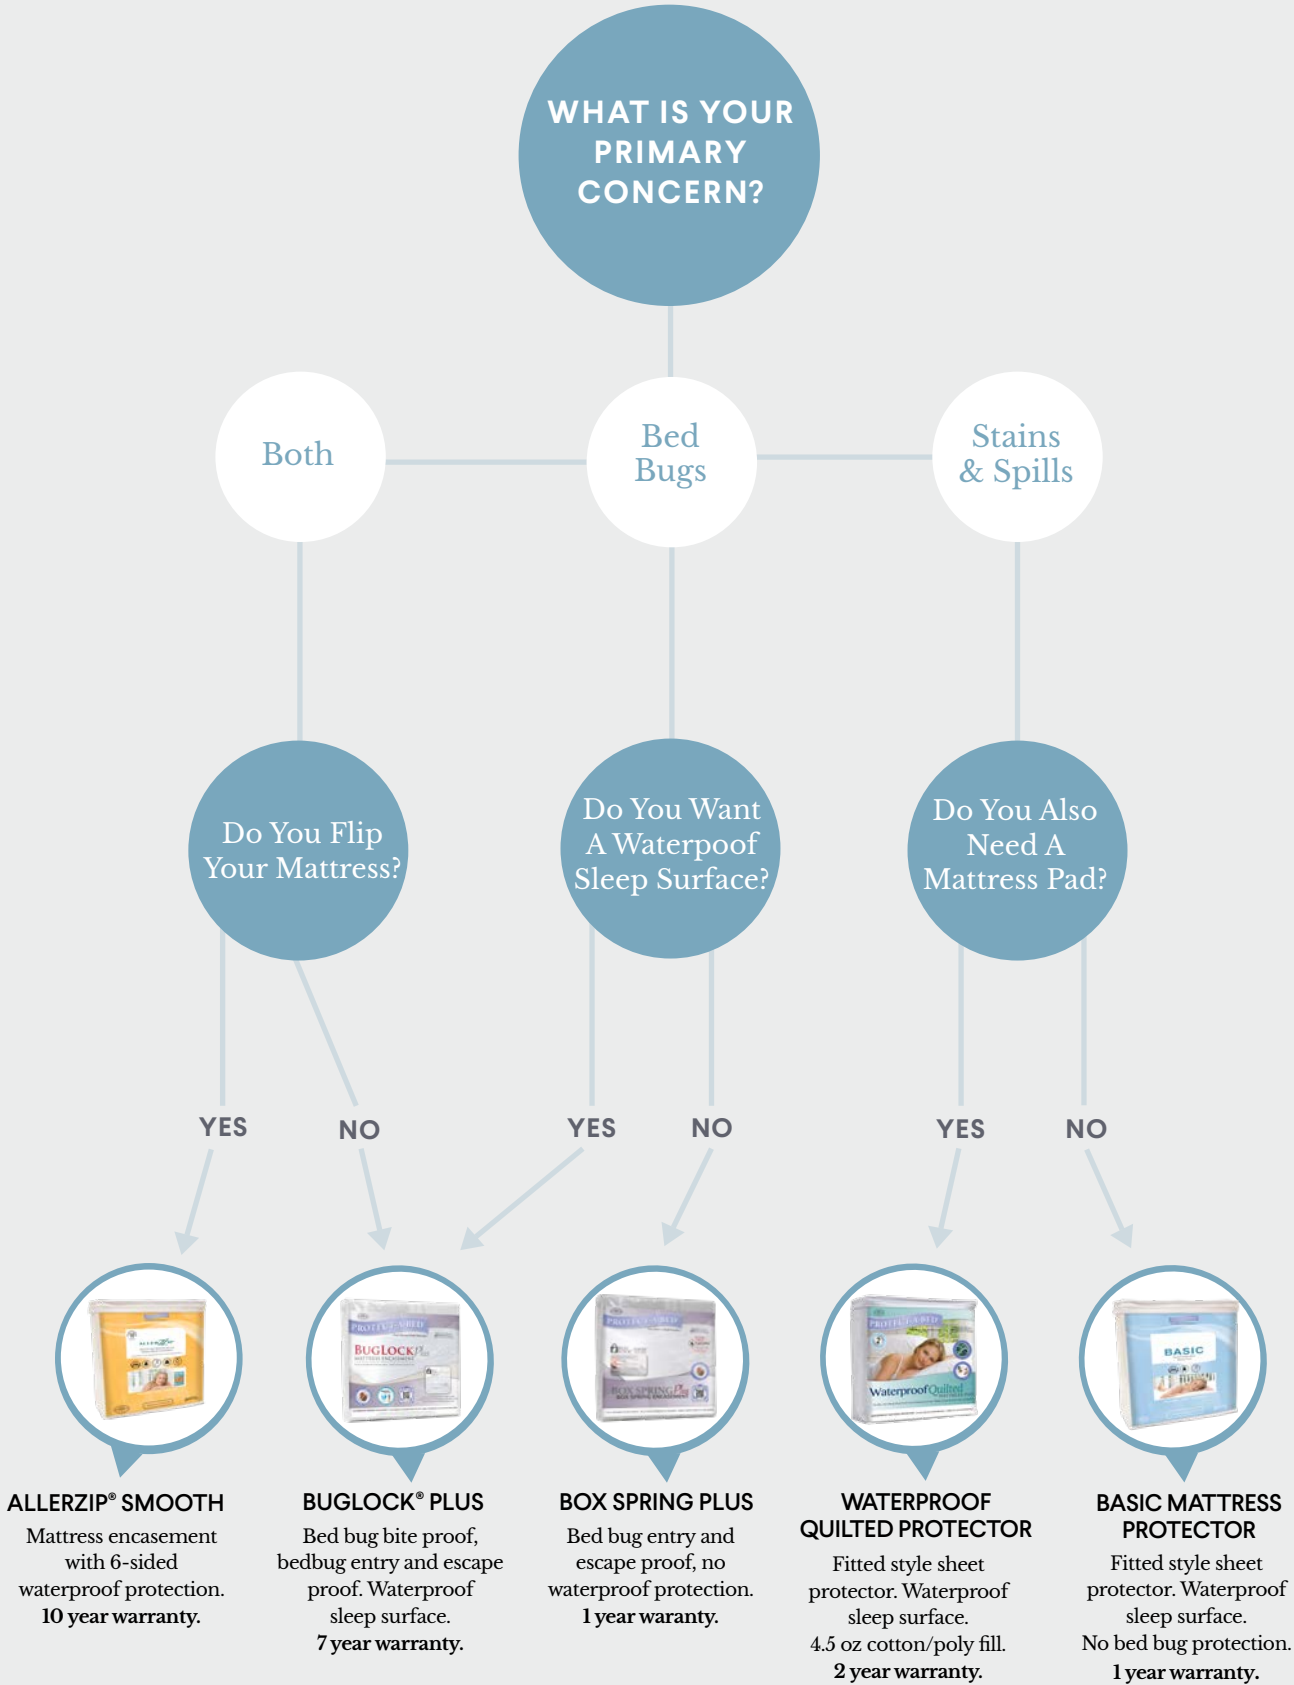

Protect-A-Bed®'s products feature Miracle Membrane®, a protective backing that creates a waterproof, air vapor-porous layer designed to sleep cool, comfortable and quiet. Miracle Membrane® blocks the passage of dust mites, allergens, pests, and human contaminants, while allowing air to flow freely. This ensures comfort, cleanliness and extends the life of an expensive, yet vulnerable asset.

QUALITY CONTRUCTION

Protect-A-Bed®'s double stitched seams, allergen flap, and 3-sided micro-toothed zipper provide commercial grade construction that has been tested to withstand up to 200 wash cycles. Our products are durable, effective, and maintain a healthy, hygienic, comfortable sleep environment while protecting assets.

how to pick the right mattress protection

allerzip® smooth encasement

For maximum protection against stains, spills, and allergens, the AllerZip® Smooth encasement features the Miracle Membrane® on all 6 sides.

Features & Benefits

Waterproof Top Surface
Blocks dust mites, allergens, mold, pet dander, liquids and sweat from the sleep surface

Viral Barrier
The Miracle Membrane® found on the sleep surface has passed the CDC standard for viral penetration.

Easy Installation
3-sided micro-toothed zipper makes installation easier on housekeepers

New! Side Protection
For 2020, we extended the Miracle Membrane® down the side for extra protection against stains and spills

box spring plus encasement

Made of durable, 100% high stretch jersey knit fabric. This encasement is not waterproof; it protects from bed bug infestation, and is ideal for use on the box spring where spills are less likely.

Size (For Box Spring)	6" Depth Fits 6-7"	9" Depth Fits 8-10"	
Twin (38x75)	-	BOB3001	
Twin XL (38x80)	BOB3017	BOB3007	
Full (54x75)	-	BOB3003	
Full XL (54x80)	BOB3018	BOB3004	
Queen (60x80)	BOB3014	BOB3005	
Hotel King (36x80)	BOB3019	BOB3008	2 per bed
King (38x80)	BOB3017	BOB3007	2 per bed
Cal King (36x84)		BOB3009	2 per bed

Features & Benefits

Industrial-Strength Fabric
Durable jersey-knit fabric is built to last

Non-Waterproof
Ideal for use on the box spring, prevents bed bug entry and escape

Easy Care
Machine washable

Don't forget to encase your box spring too! The box spring is an ideal harborage point for bed bugs, and is more difficult to inspect.

BED PROTECTION

measure the mattress!

Protect-A-Bed® encasements come in a variety of depths to ensure a snug fit each time. It's important to measure the length, width and depth of your mattress to get the best fit for your encasement. Our encasements are designed to fit snugly on your mattress. This provides a better night's sleep for your guests, makes it easier for housekeeping when changing the linens, and prevents liquid from pooling in the folds of excess fabric. Our encasements have about 2 inches of stretch in them.

quilted mattress protector pad

A mattress pad and protector in one, features a 4.5 oz cotton/poly fill, that meets the specification for a mattress pad at most hotel chains, while still offering protection from stains and spills.
