

High-Quality Gas Hoses

Save money and ensure safety

Connect your gas equipment safely and securely with Regency Gas Hoses

Whether you operate a dining hall or restaurant, Regency Gas Hoses provide high-quality equipment at unbeatable prices. If you are installing natural gas or liquid propane equipment, Regency offers a range of hoses, supreme connectors, fittings, and components to keep kitchen equipment powered for long-term use.

Smart Design

The antimicrobial PVC coating prevents grease buildup, while the 360° fittings and flexible stainless steel corrugated tube make these hoses dependable and simple to use.

Quality Equipment

Featuring a quick disconnect for faster maintenance, Regency Gas Hoses are CSA certified and you can rely on the durability of these hoses for years to come.

Product Variety

Our gas hoses come in multiple different lengths and diameters and have both mobile and stationary options, so you can find the hose that fits your needs.

Excellent Value

Thanks to an established partnership with our manufacturers, we are able to cut out the middle man to offer the best price in the industry.
