

HAWSCLEAN™

PORTABLE EYEWASH CLEANSING STICK
MODEL 9083

HawsCLEAN™ Portable Eyewash Cleansing Stick is the safe and effective way to prevent the growth of Legionella, E-Coli and other harmful bacteria in your portable emergency eyewash equipment. Simple to install and maintain, the *HawsCLEAN* Cleansing Stick is nonchemical, non-powered, environmentally friendly, and cost effective.

FEATURES AND BENEFITS

- Provides three years of protection against the growth of algae, fungi, Legionella, E-Coli, and other pathogenic bacteria
- Prevents the buildup of scale, biofilms, and corrosion
- Specifically designed for use in portable emergency eyewash products: One stick cleanses up to 60 liters (16 gallons); two sticks will treat up to 120 liters (32 gallons)
- Lowest total cost of ownership: Single unit provides protection for three years
- Service once annually to ensure ANSI compliance and water protection
- Easy to use and simple to install
- No power required
- Environmentally friendly: no chemicals, non-powered, low maintenance

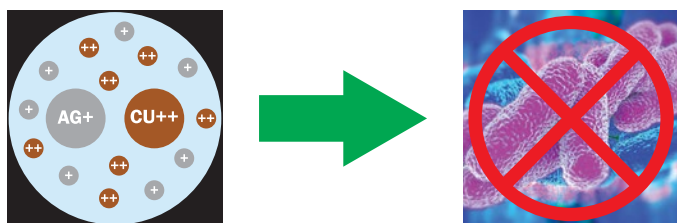

Actual Size: 2" x 3.375"

COPPER-SILVER IONIZATION TECHNOLOGY

Copper-Silver Ionization is globally recognized as a safe and effective method of cleansing water across many industries. Our *HawsCLEAN* Cleansing Stick uses an advanced noble metal technology (*active ceramics + copper-silver ionization*) to provide constant protection against the growth of pathogenic bacteria, including Legionella.

TOTAL COST OF OWNERSHIP (TCO)

HawsCLEAN Portable Eyewash Cleansing Stick is the most cost-effective method of achieving clean water.

3-YEAR TOTAL COST (MAINTENANCE & LIST COST)

Weekly Flush with no additive = \$2,080
