Rustic EuroSlim® Table Top
Outdoor OD211EB (End Base)

Table Base Styles

Table Base E-Coating Process

Thermal spraying electro-heated molten zinc particles (onto table parts). Spraying insures complete surface coverage (corners, indents, inside surfaces).

Zinc coatings are dense & adhere to metals evenly. Zinc coating is superior to galvanizing & fiberglass processes.

Table base parts after zinc coating.

Zinc coated parts are UV resistant powder coated.
