

PROTECT·A·BED®

**CREATING THE ULTIMATE HEALTHY SLEEP ZONE
IN 3 EASY STEPS**

Sleep Comfortably, Sleep Confidently

Viral Penetration Certification

- To meet the evolving needs to combat COVID-19, PAB has undergone independent lab testing of our mattress and pillow protectors.
- Our waterproof Miracle Membrane® coupled with our polyester jersey knit surface fabric which is used on a wide range of mattress encasements and protectors have **passed the CDC standard for Viral Penetration** (ASTM F1671)
- This is the same test needed for surgical gowns and drapes.
- This testing certifies that these products provide the highest level of barrier protection (level 4).
- With our Viral Barrier - viruses can't pass through the fabric.

Anti-Bacterial Testing

Our top selling encasements, AllerZip Smooth and BugLock Plus have both passed independent testing to ensure their anti-bacterial properties.

AAFA Certification

Our AllerZip Smooth encasement has been certified Asthma and Allergy Friendly® by the Asthma and Allergy Foundation of America for its ability to keep out small particles that could irritate those with asthma and allergies.

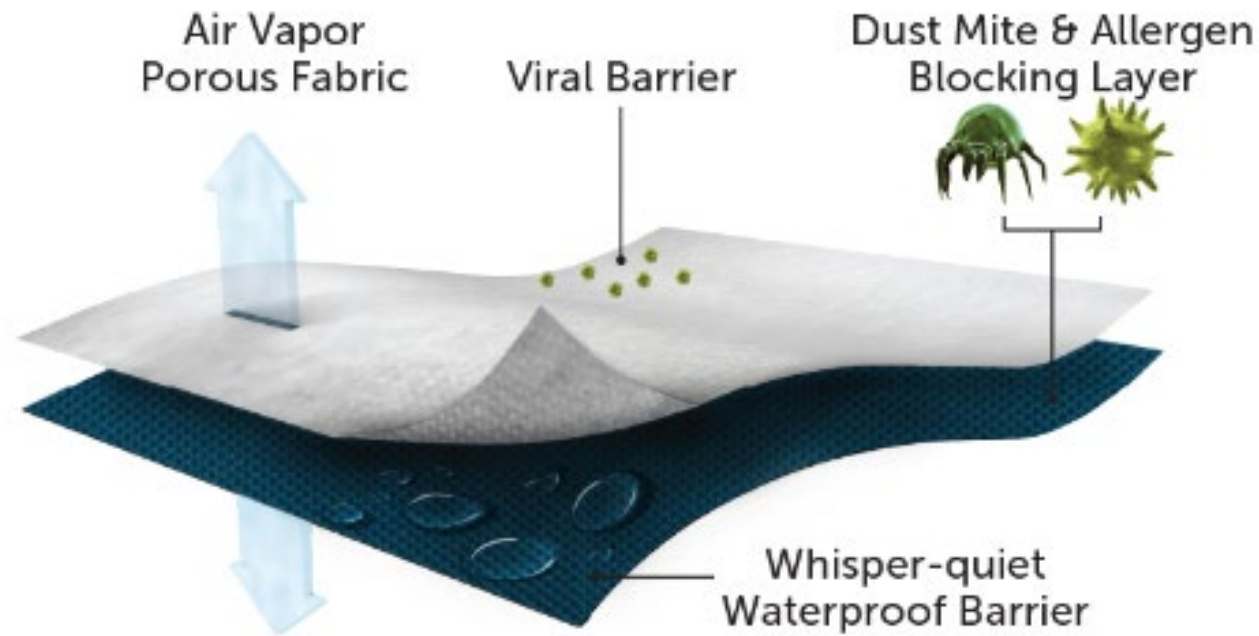

Create the Ultimate Healthy Sleep Zone in 3 Easy Steps.

Sleep Comfortably, Sleep Confidently

- *Viral Barrier*
- *Waterproof Miracle Membrane®*
- *Allergen Barrier*
- *Dust Mite Barrier*
- *Easy Care Machine Wash and Dry*
- *FDA Class 1 Medical Device*

Product Collections that Feature our Viral Barrier:

- Basic Mattress and Pillow Protectors
- Premium Mattress and Pillow Protectors
- AllerZip Mattress Encasements and Pillow Protectors
- BugLock Plus Mattress Encasements

Features That Matter:

Mattress and pillow protectors, and encasements meet the CDC's highest level (level 4) of barrier protection (ASTM F1671) which means viruses cannot pass through fabrics.

Waterproof, silent, and breathable barrier that keeps your mattress dry, cool and comfortable.

Sleep soundly by reducing bedroom allergens, dust mites and bed bugs.

Easy care, machine washable and dryer safe.

Protect-A-Bed® products are classified as class 1 medical device by the FDA.

Create the Ultimate Healthy Sleep Zone in 3 Easy Steps

Create the Ultimate Healthy Sleep Zone for Your Guests in 3 Easy Steps

- **Step 1: Install a Mattress Encasement**

Defend against bed bugs, dust mites and more; extending the life of your mattress and preventing costly remediations.

Install the encasements once with no need to remove when used with a mattress protector. Don't forget to encase the box spring and sofa bed too.

- **Step 2: Cover the Mattress With A Mattress Protector**

Waterproof Miracle Membrane® coupled with our Viral Barrier mattress protectors protect against viruses, allergens, dust mites, and liquids; providing the ultimate protection for your guests.

Mattress protectors install just like a fitted sheet and easily remove to wash upon guest checkout. Add a mattress pad for extra protection between the sheet and protector.

- **Step 3: Add Pillow Protection**

Add pillow protectors with our Viral Barrier to provide the ultimate healthy sleep zone. Launder each pillow protector upon checkout avoiding the need to wash pillows separately.
