Avantco Iced Tea Dispensers are a great choice to serve fresh-brewed iced tea from behind the counter at your diner, or set up a convenient self-serve beverage station for catered events.

SPACE-SAVING SLIM DESIGN IS GREAT FOR ANY BEVERAGE STATION

Sleek Design

Avantco iced tea dispensers can be purchased in round or slim models that are easily recognizable and make a great addition to any beverage station.

Stainless Steel Body

Each model features a durable stainless steel body that stands up to commercial use. It also makes for easy cleaning at the end of the day.

Welded Handles

With this unit's welded handles, you don't need to worry about transporting or handling it. Your staff will be able to easily carry the dispenser to your beverage station and place it in position for service.

Space Saving

The unit's handles are offset, allowing you to position multiple dispensers closer together and save space on countertops.

No-Drip Faucet

This dispenser features a convenient, no-drip faucet that is durable and also helps to protect your table covers and floors from potential drips and spills. The metal valve connecting the faucet to the dispenser also prevents potential leaks.

Stainless Steel Faucet Valve

This unit features a non-corrosive stainless steel faucet valve that prolongs the life of your dispenser.
