

## BULK RACK STORAGE RACKS

Bulk storage rack units are designed for storage areas in which goods are handled manually instead of being transported on a pallet. This storage system is designed for light to medium loads.

### Upright Column

- The frame columns are manufactured in 16 GA steel.
- The front column perforations allow shelf adjustment at 2" increments.
- Bulk rack storage is designed for light to medium loads.

### Galvanized Steel Deck

- 22 GA steel decking
- Multiple steel decks span across the beam.

### ZS Beam Profile

- Three-tab beam connector allowing secure connection to the upright frame.
- Orange beams manufactured with 14 GA steel.
- Safety pin to prevent accidental disengagement.
