

The only all-in-one scheduled handwashing reminder and timer.

### Introducing Scrub Buddy

- Helps ensure the health and safety of employees and customers
- Prompts employees every 30 minutes to wash hands throughout their shift
- Times each handwash for 20 seconds, which is what the CDC recommends\*
- Includes individual keys for up to eight staff members, assigned at shift start

### Easy-to-Use

- No installation required
- Magnetic mount or optional bracket
- Requires four AA batteries (included)
- Pre-programmed with 30-minute recurring alerts and 20-second wash timers
- Alerts can be easily reprogrammed between 0:00 (mm:ss) and 23:59 (hh:mm)

\* The CDC recommends foodservice and retail workers wash their hands every 30 minutes.

### How Scrub Buddy Works

- A key is pressed to initiate timing at the beginning of an employee shift
- The timer automatically starts and counts down to 0:00
- At 0:00, the timer sends both audible and visual alerts, the latter of which can be programmed to display either 0:00, Hand or Sani on the LED screen
- The handwash timer can be programmed to start in either manual or hands-free mode
  - In manual mode, the employee presses the key to start the handwash countdown
  - In hands-free mode, the timer automatically switches to the handwash countdown without the employee pressing the key
  - In either case, the timer will automatically restart the 30-minute reminder alert after the 20-second handwash timer concludes
