# Needs Met.

As the world's most recognized brand of baby changing stations, families and business owners have trusted Koala Kare for over 35 years to meet their needs. Our products help architects, business owner-operators and anyone tasked with managing public facilities make their restrooms friendly to children and caregivers. Our mission to create safe, innovative, high-quality, and durable products is always top of mind.

# Superior Craftsmanship and Thoughtful Design

The **KB300 platform** has set a new standard for baby changing stations. By working closely with both architects and end-users, Koala Kare has created a new line of eight expertly-crafted, innovative baby changing stations.

Whether your visual aesthetic calls for stainless steel recessed-mounted or plastic surface-mounted units, the **KB300 platform** has a baby changing station for your restroom aesthetic and budget.

All **KB300 platform** products are designed to withstand frequent use thanks to an enhanced integral steel frame and have been tested to have minimal deflection with 200 lbs of center-loaded static weight. Koala Kare partners with **Microban®** to integrate powerful product protection into our baby changing stations that helps inhibit the growth of stain- and odor-causing bacteria on product surfaces. Along with amenities like an improved liner dispenser and an external stainless steel bag hook, KB300 units support an increased focus on hygiene to satisfy end-users.

KB310-SSRE Horizontal Baby Changing Station

KB311-SSRE Vertical Baby Changing Station

## Committed to Compliance

At Koala, we understand the importance of providing safe and compliant childcare products for your patrons with children. That's why **KB300 platform** changing stations have been designed to meet a comprehensive range of global accessibility requirements including ASTM, EN, and ADA standards. Designing to meet these standards helps improve ease-of-use for users with disabilities and supporting the desire for safe, compliant child accommodations for your restroom.

# Recessed Models

## Save Space in High-Traffic Restrooms

Owners and operators of public establishments understand the demand for high-quality childcare accommodations to satisfy patrons. The horizontal KB310 and vertical KB311 stainless steel baby changing stations are the ideal choice for commercial restrooms that need a design-centric product that will meet this demand without protruding into high-traffic areas and occupying much-needed restroom space..

### Product Highlights

- Deep-drawn, uniform grain stainless steel body provides a beautiful aesthetic
- Recessed-mounted to tuck away easily when not in use
- Matches other stainless steel restroom accessories

integral frame designed to withstand frequent use.

Includes external stainless steel bag hook to safely stow diaper bags off the floor and in close proximity for the caregiver's use.

# Design Solutions for High-end Restrooms

A new standard for restroom design has emerged — one that demands visually pleasing design, a variety of colors and finishes, and the durability to withstand commercial use. The KB300 platform of baby changing stations doesn't just meet today's standard — it exceeds it. Whether your project specifies a high-end, aesthetically impressive restroom or demands versatility in color without compromising on overall style, the Koala Kare KB300 platform has a baby changing station for your business that will provide for the needs of your customers with children.

## Product Highlights

- KB310 and KB311 units feature a one-piece, stainless steel body for an impressive visual aesthetic
- KB300-SS and KB301-SS provide an elegant upgrade to the full plastic and match other bathroom stainless steel accessories and fixtures
- KB300 and KB301 are available in three color combinations

# Space-Saving Design for Small Restroom Environments

For small space restrooms, accommodating the needs of your customers with children can be a challenge. Every square inch of space counts. The KB300 platform offers a selection of four vertically-constructed units that are the perfect complement to small restrooms without compromising on design.

## Product Highlights

- Vertical units include all KB300 platform patron amenities, including the enhanced integral steel frame and improved liner dispenser
- Surface and recessed-mounted options provide design flexibility
- Variety of colors and finishes available to match your restroom's visual aesthetic

## Our History of Anticipating and Meeting Needs

Koala Kare has been committed to being an innovator in childcare accommodations for 35 years. Our expert designers understand that our baby changing stations should be designed to build trust and loyalty with the caregivers who use them.

## Microban Product Protection

Koala Kare partners with Microban®, a global specialist in antimicrobial technologies, to integrate powerful product protection into our baby changing stations. The best way to avoid stains and odors from microbes is to prevent growth in the first place, and Koala Kare uses Microban® to protect baby changing stations by inhibiting the growth of stain- and odor-causing bacteria on product surfaces.

## External Bag Hook

KB300 platform baby changing stations are shipped with an external stainless steel bag hook that arrives ready to be installed on your restroom wall. Koala Kare's external bag hook satisfies patrons by offering a secure, hygienic place to store belongings instead of on the restroom floor.

## Warranty Information

Koala Kare warrants that baby changing stations will be free from defects in material and workmanship under normal use and service, with proper maintenance, for a period of five (5) years.

## Maintenance

Koala Kare communicates directly with baby changing station owners to help keep our products in good working order. Our comprehensive maintenance and replacement parts program
