Norlake Kold Locker™ & Capsule Pak ECO™

Capsule Pak ECO™: Industry Leading Energy Efficiency

We design, specify, and build all of our own refrigeration. Our **Capsule Pak ECO™** refrigeration systems use **R290 refrigerant** which is **eco-friendly** with a low Global Warming Potential (GWP) of 3. R290 offers **high energy efficiency** and is a natural, sustainable refrigerant, significantly **reducing environmental impact and carbon footprint** compared to traditional refrigerants.

The Best, Most Energy Efficient Panel Construction & Insulation

Norlake walk-in panels provide **the most airtight and energy efficient seal**. Polyurethane insulation delivers **superior thermal performance and moisture resistance, reducing mold and mildew**. It is **more energy efficient and durable** than polystyrene. Plus, its structural strength provides **long-lasting insulation, ideal for consistent temperature maintenance** in various applications.

Nationwide Installation & Service Program

Our nationwide Approved Service Provider network guarantees **flawless setup** of your total walk-in package **every time**. With **expert support and service nationwide**, you'll enjoy **reliable, high-quality performance and complete peace of mind**.

The Best Warranty in the Industry

Enjoy **comprehensive coverage** for refrigeration systems and an industry-leading **18-month parts and labor warranty** for walk-ins.
