LAPTOP DOCKING STATIONS

U342-DHG-402

Give your laptop the functionality of a desktop workstation without the need for a permanent setup. Docking stations connect to your laptop's USB 3.0 port with the included USB cable. Your external monitor and other peripherals connect to the docking station, so when you're ready to travel with your laptop, there's only one connection to unplug.

- Add a VGA, DVI and/or HDMI monitor to your laptop
- Ethernet port eliminates the need to install an internal Ethernet card
- Available with USB 2.0 and USB 3.0 hub ports
- One-year warranty

HDD ENCLOSURES, DOCKING STATIONS & ADAPTERS

A simple alternative to installing an internal hard drive, USB-enabled enclosures, docking stations and adapters help you format and access an external hard drive. Enclosures house your hard drive and connect to the USB port on your laptop. Docking stations connect to the USB port on your laptop and provide easy plug-and-play access to your hard drive. Adapters provide a portable option for connecting your laptop and external hard drive.
