

**DISINFECTANT
BATHROOM CLEANER**

Give restrooms a long-lasting clean¹

WITH A FOAMING FORMULA THAT
CLEANS AND REPELS SOAP SCUM

CLEANS TO A BRILLIANT SHINE

Foaming citric acid formula tackles soap scum, lime scale, and hard water stains, cleaning surfaces to a brilliant shine.

PROVEN PROTECTION

Kill 99.9% of viruses and bacteria in the restrooms² to help protect your guests and employees.

DELIVERS EFFICIENCY

No scrubbing required,² means minimal effort for your cleaning staff. Easily wipe away tough soils across the restroom.

¹ Professional Lysol® Disinfectant Bathroom Cleaner contains polymer technology that creates an invisible layer on the surface, proven to help keep soap scum from building up, which can lead to reduced cleaning occasions. ² When used regularly as directed.

Power through tough cleans & help increase staff productivity¹

HOW IT WORKS

Professional Lysol® Disinfectant Bathroom Cleaner's polymer technology creates an invisible protective layer proven to help keep soap scum from building up on surfaces after cleaning, which can lead to:

- Reduced cleaning occasions
- Increased staff productivity
- Lower chemical and labor spend
