

Countertop hot food holding that's quick-to-pick, quick-to-serve.

Speed-up Service

Compact Design

fits on or above the counter for instant access to food.

Easy Access

Quick-flip Doors & Adjustable Shelves

provide effortless picking of food orders.

Gain Counter Space

Shallow Depth Design

allows for more counter space to assemble orders & facilitate access.

Metro HotBlox® Xpress cabinets improve quality & productivity by putting hot food at your fingertips to pick, assemble, and serve more efficiently.

Hold Crispy or Moist

Superior Venting

provides flexibility to hold crispy or moist food.

Better Visibility

LED Lighting

improves visibility to speed up order picking & display food prominently.

Reach-in or pass-thru. 3 Sizes on or above the counter: 2, 3, or 4 shelves.

Countertop sized with options to configure.

Right Sized.

Fits on a shelf above the worksurface.

Undercounter.

Add a dolly and a full door for convenient undercounter backup capacity.

Stackable.

Add a dolly & a stacking kit for a space-efficient, freestanding unit.

Touchscreen or Basic Control Options

Touchscreen Features:

Humidity Display, Menu Presets, Built-in Timers, Auto ON / OFF, HACCP Data logging...and more.

Adjustable Shelves or Pan Slides

Fits half sheet, full and fractional steam pans, or individually wrapped items.

Install flat or slanted for better visibility & access.

We put space to work.
