## COMMERCIAL **DUTY GRADE**

SPECIFICATIONS

The Panellift® Model 439 will outperform all manual drywall lifts in the industry. Expect low maintenance and long life since there are no cables or sheaves to replace. The patented heavy duty chain drive system delivers safe, long-term use, sheet after sheet and it's backed by a three year drive train limited warranty. Low loading height (35") makes it easy to load and the high 14'5" reach means you can reach 95% of all ceilings without extra extensions. The patented, overload protected, heavy-duty chain drive lift mechanism of the PANELLIFT® Model 439 makes it the safest, longest lasting, lowest maintenance, easiest to operate, most versatile drywall lift available. Another of the World's Best **Drywall Lifts™** from Paragon Pro.

## Accessories Available:

- 18" Extension extends reach to 15'11"
