Palletizing as easy as 1, 2, 3

Now, get the production advantage you've been looking for with QueBot™. The tireless labor solution that fits your budget, efficiently meets your needs and comfortably fits within your facility.

Why Deploy QueBot™:

- **Variety** – Multiple, pre-engineered cells to choose from because one size (or solution) does not fit all
- **User Experience** – Easy to use and configure with no prior experience and deploys immediately
- **Size** – Minimal footprint compared to traditional robotic cells, making it a great fit for space constrained environments
- **Flexibility** – Customization options available to suit different end of line needs, creating your “perfect fit”
- **Cost** – Low cost of ownership and Quick ROI make QueBot™ the perfect solution

Collaborative Robot Palletizers

From \$125,000

Choose from four pre-engineered Palletizing configurations to meet your payload, reach and rate requirements. QueBot™ palletizing cells are ready to purchase, delivering in just a few weeks and can be deployed the day you receive them. No prior programming experience is necessary. If you do have special integration requirements, please contact us. We offer turnkey system pricing for each model.

Pictured - QueBot™ FX

QueBot™ D

Robot: Doosan H2017
Payload: 40 lbs
Max Rate: 6.5 cyc/min
Max Pallet Height: 60"

Safety Scanner Incl: No
End of Arm Tools: 1
Input Conveyor: Yes, skewed
Delivery: <4-6 weeks

QueBot™ DS

Robot: Doosan H2017
Payload: 40 lbs
Max Rate: 9 cyc/min
Max Pallet Height: 60"

Safety Scanner Incl: 5
End of Arm Tools: 1
Input Conveyor: Yes, skewed
Delivery: <4-6 weeks

QueBot™ DST

Robot: Doosan H2017
Payload: 40 lbs
Max Rate: 7 cyc/min
Max Pallet Height: 100"

Safety Scanner Incl: 5
End of Arm Tools: 1
Input Conveyor: Yes, skewed
Delivery: <4-6 weeks

QueBot™ FC

Robot: FANUC CRX25
Payload: 50 lbs
Max Rate: 10.5 cyc/min
Max Pallet Height: 75"

Safety Scanner Incl: 5
End of Arm Tools: 1
Input Conveyor: Yes, skewed
Delivery: <4-6 weeks

The RG Group automation team can assist you in getting the most out of your technology and your production.

We can fit you with a component or system right for your needs

- Palletizing and Depalletizing
- Machine Tending and Pick n Place
- Material Handling
- Visual Inspection, Identification and Tracking

And more

Contact us today to schedule a quick meeting, virtual or in person tour of our facility or just to discuss how we may be able to help you eliminate downtime, labor issues, wasted travel time and fluctuations in demand.
