

Portion Control

QUICK SCENTS

QuickScents packets are formulated to respond to changing levels of waste and temperatures based on the amount of active ingredients in each formula. QuickScents Plus has higher levels of active ingredients and is a great solution for high heat, heavy traffic situations. For moderate conditions, use QuickScents Regular, and if the weather cools down or you are doing same day service for a special event, use QuickScents Event.

QUICK BLUE

Safe-T-Fresh has created QuickBlue, the first dual-film effervescent packet! This extraordinary, patent-pending process uses a paper film on one side and PVA film on the other. The result is a packet that dissolves quickly and is dispersed throughout the tank by an effervescent action. And it works in brine!

REGULAR

ALL SEASON

MIX

1 PACKET PER 5 GAL WATER
1 PACKET PER 19L WATER
