- Bright, cheery colors operators can easily mix and match
- NRA show demonstrated operator interest across segments - not just pool & resort, outdoor summer catering and beach restaurants
- Perfect for daily use with a focus on performance and cost-efficiency
- Inverted color schemes, like solid green with a white rim vs. white with a green rim, allows operators to balance the color saturation of their tabletop to their liking
- Commercial dishwasher-safe

Break through the white noise and make your food pop!
