

CREWSAFE® CARTRIDGE KNIFE

THE STORY

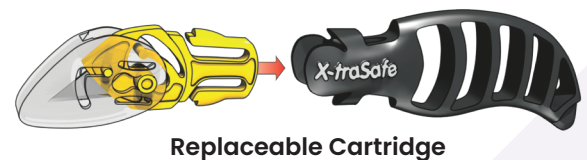

Our cartridge-based knife was developed as a safe alternative to utility knives that use replacement razor blades.

BENEFITS

- Minimizes exposure to costly litigation and medical damages from injuries caused by loose blades in the workplace
- Spring activated blade guard protects users by closing after each cut
- Manual guard lock ensures cartridges do not cause laceration injuries

FEATURES

- Stainless steel blade resists corrosion & breakage
- Environmentally friendly replaceable cartridge
- FDA compliant, food-safe materials
- Tape splitter safely & easily opens taped boxes
- Non-fatiguing lightweight handle
- High visibility color cartridge

CAUTION: Products that provide "cut resistance" and "cut protection" or "puncture resistance" do not prevent or eliminate the potential for cuts or punctures.
